

ABE RUEF IS GRANTED A REHEARING

Taft Bombarded by Demands for Fair

SOLONS SAY BIG FAIR WILL BE HELD

Carefully-Worded Resolution Is Prepared, Declaring Aid Will Never Be Asked

Thousands of Telegrams Are Sent to Washington for San Francisco

PRESIDENT WILLIAM H. TAFT, who has been bombarded with telegrams demanding big fair.

HERE IS THE FAIR MESSAGE

SEND IT TO THE PRESIDENT

This is the telegram which the Washington delegation suggests that you send to President Taft today:

William H. Taft,
President of the United States, Washington, D. C.

The West expects you and your party leaders to use all the forces and power at your command to settle the Exposition matter on broad business lines.

(Signed)

SACRAMENTO, Jan. 23.—More co-terminous resolutions intended to aid in bringing Congress to see the advantage of postponing the Panama-Pacific Exposition to be held in San Francisco in 1915 were introduced in the legislature today.

Senator Burnett and Assemblyman Henry were selected by Governor Johnson to offer the resolutions, the text of which was telegraphed from Washington by J. P. Hale, acting president of the exposition committee there.

Hale's telegram stated that the resolution adopted Friday was much appreciated, but that it would be desirable to adopt the wording of this one. The new noticeable feature of the new resolution is in behalf of carefully worded assurance that the exposition is going to be held, anyway, but that Congress is desired to invite the nations of the world thereto.

RESOLUTION.

The resolution is as follows:

"Whereas, An International Exposition is to be held in the city of San Francisco during the year 1915 for the purpose of celebrating the completion of the Panama Canal;

"Whereas, There has been decided by the State and residents of this city a sum of seventeen and one-half millions of dollars to be expended in furthering the success of such exposition and proper celebration of the completion of the greatest engineering work in the history of the world, and a suitable site being available for said exposition; and

"Whereas, The State of California deems itself possessed of ample means, now available, together with almost inexhaustible resources of scientific, literary and artistic interest, to add thereto, if necessary, without the necessity of federal aid of any kind or character; and

NO ASSISTANCE NEEDED.

"Whereas, It further appears that California's representatives have assured the Congress of the United States that federal aid or assistance would never be sought or requested;

"Be it therefore resolved, by the Senate and Assembly of the State of California, that we, the representatives of the people of the State of California, do hereby respectfully request the Congress of the United States to cause an invitation to be extended to the people of the world to participate in said exposition, and we do hereby agree that in the event that Congress shall cause such

AUTHOR IS SHOT ON WAY TO CLUB

David Graham Phillips May Die as the Result of Bullet Wound

Assailant Then Turns Gun on Himself and Dies Instantly

NEW YORK, Jan. 2.—David Graham Phillips, the author, was shot by an unidentified man while on his way from his home to the Princeton Club today.

Mr. Phillips was taken to Bellevue Hospital where it was said his condition was serious.

His assailant shot and killed himself.

The shooting occurred in East Twenty-first street, a short distance from the Princeton Club house. Five shots were fired and Mr. Phillips fell. The stricken man was carried into the Princeton Club. An ambulance was summoned and he was taken thence to the Bellevue hospital.

ASSASSIN DROPPED DEAD.

Meantime the assassin had turned his weapon on himself. A single shot sufficed and he dropped dead in the street.

An examination at the hospital revealed that five bullets had taken effect in Phillips' body, one just above the heart, three through the stomach and one in the leg.

The man who did the shooting was well dressed.

He was about 5 feet 8 inches in height, well built and of middle age. From an envelope found in his pocket the police believe him to be Fitz G. C. Goldsborough, a violin teacher, 46 years of age, who lived in 112 East 11th street.

David Graham Phillips is a well known figure in literary and magazine circles in New York. He was born in Madison, Ind., in 1867, educated in DePaul University and later in Princeton. He has been an author of many works and a reviews.

Phillips could advance no reason for the attack upon him.

WOMAN IS MURDERED IN LONELY COTTAGE

Mrs. Marie Swanson Is Killed With Chloroform by Unknown Fiends

Found Lying on Bed With Face Mashed in Sieve Filled With Acid

What is undoubtedly a cold blooded murder, perpetrated by some person or persons unknown to the police, was unearthed by the police this morning when Mrs. Marie Swanson was found lying on an old bed in the rear of a house at 1129 Eighty-eighth avenue, Elmhurst, with her face submerged in an old sieve filled with cotton into which chloroform was dripping from a bottle suspended from the head of the bedstead in such a way as to saturate the cotton.

The gruesome find was made by Mrs. E. M. and Mrs. G. M. Mure. Thoroughly frightened, the women rushed across the street to the house of Joe Perez, who at once notified the police. The dead woman was apparently 40 or 45 years old and the sieve had been securely strapped to her head by her murderer to make sure that there would be no misarranging of the plans.

MAKES GROSS FIND.

Officer Anderson of the Melrose police station was detailed to investigate and on going to the second story of the house he found that the door of the room in which the woman was found had been taken down and in its stead a blanket had been tightly nailed across the opening and a large mattress thrown across the floor at the bottom to keep out the air.

Upon pulling the blanket down a gruesome sight was revealed. The woman was lying on the bed partly clothed. In her hair and across her breast were lying some old faded flowers.

Beside her on the bed lay an empty bottle which had evidently contained chloroform. The label on the bottle had been torn off by the culprit to make doubly sure that he would not be found out.

The bottle from which the fluid was dripping into the cotton was tightly screwed in a neat little little cotton bag.

Evidence points toward deliberate planning by the slayer.

Mrs. Swanson, the dead woman, rented the house on January 13 from A. G. Beckman, agent for Mrs. G. Sablin, stating that she expected her niece to come and live with her. None of the neighbors saw very much of her, and all declare that they never saw her entertaining any man at any time.

MYSTERIOUS MAN.

One of the men installing sewers along the street stated that he saw a man lurking around the house on two or three occasions. Several times he started up the front stairs as though to ring the doorbell, but for some reason turned back.

When looking through the woman's effects, it was found that she recently purchased three hats in Stonehurst from the E. B. & A. L. Stone Company, the dealer to which were entered in her name. Nothing else was found to indicate where she came from or who her relatives are.

A small silver watch and \$1.55 in coin were found lying on the bureau. Under the bed was found the handle to the sieve, wrapped in a piece of paper with the inscription of Hale's department store on it. All of these things the police have taken, and expect to use them as clues in catching the murderer.

Mrs. B. Davis of 1148 Eighty-seventh street, stated:

"When the woman moved into the house she seemed to be morose, as if brooding over something all the time. She told my daughter one day that she was expecting her niece, who is away at school, to come and live with her. She never mentioned other relatives and we were led to believe that she was a widow. She kept away from all her neighbors and only went out of the house when it was necessary to purchase articles at a nearby store."

"I never saw a man about the house or never heard any noise to indicate anyone but herself was there."

MARKS OF VIOLENCE.

When the body of Mrs. Swanson was taken to the branch morgue of Elmhurst today, it was found that the side of her head and neck bore marks of violence. It is the belief of the officers and Deputy Coroner G. W. Murphy that a struggle took place between her and her assailant before she was thrown on the bed and chloroformed. Murphy states that the woman was evidently dead for about three

SUPREME COURT WILL PASS UPON EVIDENCE AND CONDUCT OF TRIAL

Entire Record in the Case Is Ordered Transferred From the Appellate Tribunal

SAN FRANCISCO, Jan. 23.—The state supreme court sitting in bank this morning granted Abraham Ruef a rehearing on his appeal from the decision of Judge Lawlor and the judgment of the superior court sentencing him to 14 years in San Quentin penitentiary for bribery.

The decision comes following the refusal of the district court of appeals to grant a rehearing after that tribunal had sustained the verdict of the lower court and the decision of Judge Lawlor denying to the former political boss a new trial.

SUPREME COURT DECISION VOLUMINOUS RECORD

This morning's decision, which is signed by Chief Justice Beatty and Justices Loring, Henshaw and Melvin, reads as follows:

"The People, etc., Plaintiff and Respondent vs. Abraham Ruef, Defendant and Appellant.

"The petition to have the above entitled cause heard and determined by this court after judgment in the District Court of Appeal for the first appellate district is granted, and said cause transferred to this court for hearing and decision; also ordered that the record herein be transmitted to this court.

"BEATTY, C. J.
"LORING, J.
"HENSCHAW, J.
"MELVIN, J."

Petition for Rehearing

The decision of the highest state tribunal is the result of Abraham Ruef's appeal from the appellate court ruling denying him the new trial to which he claims to be justly entitled. The petition for a rehearing was brought immediately after the appellate court had refused to reconsider its own judgment in the matter and several attorneys, independent of the action of Ruef's counsel, including Attorneys Metson and Drew of this city, called the attention of the court to several facts which they believed furnished grounds for a reversal of Judge Lawlor's judgment and sentence.

The supreme court, by its action today, takes over the mountain of evidence and the voluminous transcript on appeal which was compiled by the attorneys for the former boss after months of labor. The entire evidence submitted before Judge Lawlor will be placed before the court and the chief facts which Ruef relies upon to give him the new trial which he seeks, the alleged influencing of the jury improperly at the time of the shooting of Francis J. Heney; the alleged implication contained in the closing address of Miriam Johnson and other facts, will be strongly brought forth.

Ruef is much elated over this victory, believing that he will win out in the end.

Placed on Calendar

By order of Chief Justice Beatty the Ruef case was placed on the motion calendar and will be brought to the attention of the court on February 7 next.

Ruef himself was much elated as the result of the decision. He was found at the office of one of his attorneys, George Keane, and his beaming countenance and his attitude as he chatted with several friends indicated his pleasure at the outcome.

New York Favors Coast

ALBANY, N. Y., JAN. 23.—THE LEGISLATURE ADOPTED A CONCURRENT RESOLUTION TODAY ASKING CONGRESS TO NAME SAN FRANCISCO THE PLACE FOR THE PANAMA CANAL EXPOSITION.

SENT FROM OAKLAND

William H. Taft, President of the United States, Washington, D. C.: The Chamber of Commerce of Oakland, Cal., believes that San Francisco is entitled to the Panama-Pacific Exposition in 1915, not only by reason of its advantages of climate, of geographical position, the variety of interests which a trip to the Pacific coast holds for a tourist, but because our sister city supplies the most inspiring example of recuperative energy in the annals of civic achievement. San Francisco deserves this recognition at the hands of the American people by every consideration of fitness, of justice and political and economic expediency.

H. C. CAPWELL, President.
A. A. DENTON, Secretary.
Oakland, Jan. 22, 1911.

Charles S. Melvin, Brother of Justice Melvin, Seriously Ill

Charles S. Melvin, secretary of the Mountain View Cemetery Association, brother of Supreme Court Justice Henry A. Melvin, is dangerously ill at his home in Berkeley.

Mr. Melvin suffered an attack of pneumonia poisoning last July and since that time his health has been very poor. Thursday he had a severe hemorrhage from the stomach and his condition is now very critical. He is attended by Dr. Harding Mason, of San Francisco, and Dr. C. H. Wallworth of Berkeley.

The condition of Judge Melvin was reported as slightly better than yesterday at the Providence Hospital this morning, although those in attendance are still unable to say whether his illness may not take a turn for the worse before its course is finally decided.

Torpedo Flotilla at San Diego to Practice

Cruisers Expected to Join Them Shortly for the Spring Maneuvers.

SAN DIEGO, Jan. 2.—Two divisions of the Pacific torpedo flotilla, the second and third, eight boats in all, are in San Diego bay now and the first division, five boats, now at Mare Island, is expected in port from Mare Island as soon as repairs are completed.

The two divisions entered the harbor last evening and after allowing the men shore leave will be practicing maneuvers off the Coronado Islands with the ships of the armored cruiser fleet.

The cruisers are expected here next month. Previous to their arrival the torpedo boats will be overhauled and minor repairs made.

Supreme Court Denies Congress' Jurisdiction

High Tribunal Will Not Give Legislative Body Power to Instruct It.

WASHINGTON, Jan. 23.—On the theory that Congress cannot confer jurisdiction on the supreme court of the United States for the sole purpose of testing the constitutionality of a law, the supreme court declined today to consider the constitutionality of the laws increasing restrictions on the sale of and otherwise affecting Indian lands in Oklahoma.

Racetrack Will Be Given Fifteen Days of Grace

SACRAMENTO, Jan. 23.—Race tracks will be given 15 days of grace before the new anti-gambling bill shuts down them after its passage, according to an informal agreement entered into by Republican senators in caucus this afternoon.

This is not sufficient to allow completion of the bill, however, and it was stated that this consideration did not enter into the situation, the only objection being to protect small shopkeepers and others dependent upon race track patronage. As now drawn, the bill takes effect as soon as the governor shall sign it. An amendment providing the extension in time will be incorporated.

According to word received at the Oakland race track this afternoon from New York, the Hart-Agnew owner's liability law, an anti-gambling measure, had been declared unconstitutional.

This law, which was framed to prevent betting on the race courses, was made so drastic that it enabled the proprietor or owner of any building or establishment to be judged on evidence that a tenant or employee had been guilty of wagering.

Contending that this clause is a violation of the Constitution of the United States, the friends of racing have entered a writ of habeas corpus in the courts of New York to knock the measure out.

The action of the court in declaring the law unconstitutional is taken to mean that racing will be resumed in New York until the legislature passes another measure.

City Attorney Finds No Law For Franchise Referendum

That he has been unable to discover in the charter of the city of Oakland or in the general laws anything that would give the city council the power to call a referendum election to submit the Seventh street Southern Pacific franchise matter to the people, was the statement made by City Attorney Ben F. Woolner this morning. It is not known whether the Southern Pacific Company will be willing to accept the franchise as it now stands on the franchise plan, as an error in the figures on which the plan is based has been discovered, but if the railroad officials notify the council of their willingness to accept the plan, it is probable that President Pendleton will suggest the proposition of referring the matter to the advisory vote of the two U. S. senate districts.

According to City Attorney Woolner it may be possible to give the franchise ordinance final passage, with a proviso that it shall be submitted to the vote of the people for ratification. He says that it is probable that such a legislative body as the council may follow this course, although there is no specific provision for its doing so. The course is followed occasionally in the state legislature and might be brooked to meet the present difficulty. He is not sure that this popularity vote, however, would be anything more than advisory.

Two Trains Collide in Wales and Many Killed

CARDIFF, Wales, Jan. 23.—A passenger train collided with a coal train today, near Pontypridd, today.

Three of the coaches were telescoped and many passengers killed or injured.

Soldiers recovered the bodies of eight men and three children from the wreckage.

Those on the train included a number of miners who were on their way to London for a conference with the mine owners.

show an increase.

PASTOR'S TROUBLE TO BE HIS THEME

Substitute Minister of First
Congregational Declines
to Remain.

At the Men's League dinner of the First Congregational Church in the church parlors tomorrow evening Dr. H. K. Kloss, the substitute pastor of the church, will speak on "A Pastor's Assessment of Troubles." In the address he will discuss in a semi-humorous way the various troubles which pastors are called upon to face. As Dr. Kloss finishes his term with the church next Sunday, it will be his last public talk in this city outside the pulpit.

Dr. Kloss was invited by the church committee to remain longer with the First Church, but owing to a promise to substitute at the Webster Groves Congregational Church of St. Louis, he was obliged to decline.

As yet the church committee has not been able to find a pastor to take Dr. Kloss' place. One of the trustees stated today that a substitute would be obtained from the east, it being the policy of the church to have a new man every two months until the final selection of a pastor has been made.

A letter from England recently received in this city states that the former pastor of the First Congregational Church, Rev. Charles R. Brown, will occupy the pulpit of the Congregational Church at Bournemouth, England for several months during the absence of the pastor.

PERSISTENT SCHOOL MARM WINS HER POINT

PEDDMONT, Jan. 23.—Miss Clara Crumpton, principal of the public school in Piedmont who, some time ago, protested against being deposed to make way for the appointment of Rev. John Stuchell, will remain principal of the school until the close of the fiscal year according to the announcement made by Adolph Uhl, president of the Board of Education. The matter of securing a special certificate for Stuchell in order that he might act as general supervisor of the school, has been dropped by the board, according to Uhl. The school, which is now in the hands of George W. Frick and District Attorney William H. Donahue that under the present laws Stuchell could not be allowed to assume the principalship of the school unless a recommendation was secured from the faculty of the eastern university from which Stuchell graduated, it was believed that the board would make an effort to secure the necessary certificate.

KINDERGARTEN IN CHURCH.
FORT WAYNE, Ind., Jan. 23.—To enable the parents of babies to attend church services Sunday morning, Rev. H. B. Master, pastor of the First Presbyterian Church here, has announced that a nursery in charge of experienced kindergarten teachers would be conducted in one of the church's social rooms during service.

CONGRESS TO CROWD ALL WORK INTO ONE SESSION

Republican Leaders Say There Will Be No Call for Extra Gathering of Law- makers at Washington

WASHINGTON, Jan. 23.—When Republican leaders in Congress were asked if there is likely to be an extra session because of the congested condition of the calendars in both branches, they invariably answered in the negative. They insist that the present short session is now jammed more than was the short session two years ago so far as appropriation bills are concerned.

Comparing the present session with the session of two years ago, the truth of the leaders' claim. Already the house has passed the Indian, rivers and harbors pension legislative, urgent deficiency and army appropriation bills, and is nearly through with the postoffice bill. Two years ago the house had passed only the pension legislative, District of Columbia and naval bills in the same time. It is true the Senate has passed only the urgent deficiency bill, but two years ago only one legislative bill had been passed.

NOT DISTURBED.
Senate leaders are not disturbed by the situation. Two years ago thirteen big appropriation bills were passed in the first four weeks of the session, and Republican leaders say what has been done can be done.

Some Senators believe no particular effort has been made to prevent congestion and that appropriation bills have been delayed to kill off general legislation. It would surprise no one among members opposed to votes on the Locomotive, the resolution providing for the election of Senators by direct vote of the people, the tariff commission bill and other controversial matters should be voted upon. The ship subsidy bill is being used as a buffer and there are several treaty matters that may be brought in if needed to kill time.

NEW RULES COMMITTEE

Gossip among Democratic members of the house is directed toward the meeting called for next Friday night of the fourteen Democrats on the new ways and means committee. These will select the Democratic members of a new rules committee and map out a program for their legislative effort.

OTHERS MENTIONED.

Ieekles Chairman Henry the Democrats whose names have been brought forward in the conference on the rules committee personnel include Hardwick of Georgia, Fitzgerald of New York, Pou of North Carolina, Littleton of New York, Garrett of Tennessee, Wilson of Pennsylvania and Graham of Illinois.

Fitzgerald is a candidate for the chairmanship of the appropriation committee, which may eliminate him as a minority member. Pou was on the ways and means committee, but gave way to Kitchen of his own State.

PROBABLE CHAIRMAN

Underwood is non-committal as to the probable make up of the committee, but says no names have been decided upon. There are conferences constantly among the members of the House and gossip is running herefrom has allowed several of the chairmanships in this way. Rules in the House are controlled by the Alabama, Interstate Commerce, Adams of Georgia, Military, Hay of Virginia; Stafford, Lloyd of Missouri, Agriculture; Lloyd of South Carolina, Naval, Padgett of Tennessee, Public Buildings and Grounds, Shepard of Texas, Indian Affairs and Stephens of Texas, Appropriations, Fitz

gerald of New York, and Public Lands, Robinson of Arkansas.

Besides these, Ollie James of Kentucky, one of the staunchest Republicans of the South, and Clerk and of Chairman Underwood of the Ways and Means Committee, is now a member of the Banking and Currency Committee and would like to be chairman. Flood of Virginia would like to head the Foreign Affairs Committee, and Fow of North Carolina would like to head the District of Columbia Committee.

FORGET DEFECTION.

Fitzgerald, whose principal opponent in the fight for the Appropriations Committee is Burlington of Texas, is one of the twenty-five Democrats who voted against the party on the rules in the light during the extra session of the present Congress, but his defection is said to have been forgiven.

The Republicans, under the spur of the leaders and non-quorum insistence of Dwight of New York—the Republican whip who proposes to force the attendance of members—are continuing the high-speed work on appropriation bills. The Postoffice appropriation bill, which will be passed early this week, will give way to the agricultural appropriation bill. The District of Columbia, for instance, is now being considered. The appropriation bills are all ready to be taken up with the Military Academy and sundry civil supply bills soon to follow.

WORK FOR PRESENT WEEK.

The problem of the Congressional reapportionment in the light of the recent census figures, will be placed squarely before the House if Chairman Crumpton of the Census Committee has his way. He proposes asking the House to take up his bill the effect of which would be to fix the House membership at a little more than 400 members, as a privileged measure at the first opportunity.

The Ways and Means Committee will bring in a bill this week to provide for a continuance of the work of the Tariff Board, giving that body a permanent status. The Republican members finally have agreed on the bill, which they will pass over to the minority members of the committee for inspection Tuesday and then report the measure to the House.

The Brier bill for signal honors to Captain Robert E. Peary for his polar achievement, will be brought up in the House probably this week.

Another subject that probably will engage attention in this week's session is the contest between San Francisco and New Orleans as to which will be designated as the Panama Exposition city.

**29,293 VICTIMS
OF COAL MINING**

Twenty Years of Slaughter Are
Blamed to Lack of Safety
Devices.

WASHINGTON, Jan. 23.—The Bureau of Labor of the Department of Commerce and Labor has just published in its bulletin No. 90 a study of "fatal accidents in coal mining" by Frederick L. Hoffman. The study is limited to fatal accidents and for the most part to the decade ending with 1908.

The number of fatal accidents in the coal mines of North America during the twenty-year period ending with 1908 was 29,293, and the rate per 1000 employees in the industry was 3.11.

In the East Central section, which comprises Western Kentucky, Illinois and Indiana, the fatality rate for the twenty years ending with 1908 was only 2.25 per 1000 employees while in the Western section (Colorado, New Mexico and Utah) it was 6.4 per 1000, and in the Pacific Coast section (Washington and British Columbia) 7 per 1000.

A single mine disaster may cause the loss of many lives and therefore attract national attention, yet the loss of life by such disasters represented only 12.6 per cent of the total loss of life.

By far the most important single and well defined cause of accidents, a fall of coal or roof, 48.6 per cent of all fatal accidents in the industry period being due to this cause, while explosions of various kinds accounted for 24.2 per cent and mine cars for 12 per cent.

The average age of death of men killed by coal mine accidents during 1908 was 31.8 years.

REPRIMAND YOUTH FOR GRAVE CHARGE

High School Editor Gets in
Trouble With Churchmen
at San Jose.

SAN JOSE, Jan. 23.—City Superintendent of Schools Alexander Sheriffs admitted yesterday that a public reprimand has been given Preston Higgins a writer for the San Jose High School Herald and Editor Tass Ryland of the paper for an article which appeared in the paper last week. The article said among other things that many criminals with more or less petty charges against them escape punishment because the judges or the prosecutors or some other agency high in political circles belong to the same lodge or the same church. The writer mentioned the Catholic church in this connection.

Rev. Father J. A. Lally and J. R. Ryland headed a delegation of Catholic churchmen, which took the matter up with Principal L. B. Avery of the High School and City Superintendent of Schools Alexander Sheriffs. It is said that the expulsion of young Ryland and Higgins from school was demanded but Sheriffs stated that the lads were reprimanded and that a strict censorship over future articles to appear in the Herald has been established by a committee of the High School faculty.

Tass Ryland is the son of J. R. Ryland one of the protesting delegation and Preston Higgins author of the article is a member of the high school debating team and the high school's leading declaimer.

DELINQUENTS THE THEME DISCUSSED

Prominent Episcopalians Hold
Social Service Prior to
Convention.

SAN FRANCISCO, Jan. 23.—Questions pertaining to the reformatory and delinquents were discussed today at the social service conference which was preliminary session of the sixty-first convention of the Episcopal diocese of California, which will be formally opened tomorrow morning in St. Luke's Church. Judge Murasky of the Juvenile Court opened the meeting with an address on the "Juvenile Court." The discussion was led by Miss Beatrice McClellan, assistant probation officer of Alameda county.

The general topic was "Our Treatment of Delinquents." Dr. James T. V. Atkins, former city physician, spoke upon "Conditions at the County Jail." "Our State Prison and the Need of a Reformatory" was discussed by W. A. Gates, a secretary of the State Board of Charities. Chaplain Lloyd of San Quentin led the addresses on that subject.

CENTRAL PENNSYLVANIA UNIONS LOSE A POINT

COLUMBUS, Ohio, Jan. 23.—By a rising vote today the recommendation of the credentials committee of the United Mine Workers of America to seat the delegates from the nine local unions in Central Pennsylvania whose seats were contested, was defeated.

A roll call will be held before the unseating of the delegates is positively determined.

SOCIALISTS NAME FULL CITY TICKET

Thomas Booth Is Unanimously
Nominated for Office of
Mayor.

The Oakland branches of the Socialist party met in convention in Dietz hall yesterday and nominated a full city ticket to be voted on at the coming primaries. Thomas Booth of the Thomas Booth company was unanimously nominated for mayor; Robert Vincent, masterbutcher, for assessor; J. C. Wanner, street workers' union; H. C. Morgan, metal railway-men's union, A. Hunsen, real estate dealer, and C. H. Stooling, carpenter's union, are the party candidates for commissioners. They will not be chosen by number until later by the campaign committee, and this will not be done until the other nominees for the position have announced themselves.

For school directors the following six candidates were named: F. N. Barney, Mrs. Emma Gilbert Archibald Wilson, H. C. Tuck, William Strobach and Theodore Radtke. Among the plans in the platform adopted were municipal control of all public utilities, municipal free employment office, municipal savings bank, converting of schools into public centers, public lavatories and the abolishment of the third degree and the detinue book, as alleged to be in force by the police department.

WOMEN SUPPLANT MEN.

HEMPSTEAD N. Y., Jan. 23.—Women inmates have been substituted for men at the Hempstead Hospital of which Mrs. O. H. Belmont is president. The hospital is the only institution of its kind in this section and serves a large part of Long Island.

Bell

Spectacular exhibition
— by —
PELHAM
the Hypnotic Wonder

Greatest in the world. Every day at the Bell
Theater, San Pablo Ave.

On Wednesday a man under Pelham's influence will be at the Owl Drug Store 13th and Broadway for 12 hours. At intervals of two hours, through the power of concentration, Pelham, on horseback in the street, will raise this man from his cot in the Owl window. For the second show at the Bell on Wednesday, after being taken up there in a trance, Pelham will bring the man out of this condition.

DISREGARDS WARNING; IS KILLED BY TRAIN

SONOMA, Jan. 23.—Charles Miller, a tramp, was killed by being struck by the south-bound California Northwestern train Saturday. The accident occurred a short distance west of Sonoma. His skull was badly battered, one arm was broken in two places, internal injuries were received and the man's hips were badly injured. Before the accident Miller and another tramp were in Sonoma. Both became intoxicated and walked out of town on the railroad track. Miller paid no attention to the warning whistle of the engineer, and when it was seen that he refused to leave the track the train was too close upon him to be stopped before he was struck. The dead man's companion has not been seen since the accident.

GLACIAL ICE RECEIVED

ITHACA N. Y., Jan. 23.—The Geological Department at Cornell University has received a consignment of several hundred pounds of ice from Gleditsch glacier, in the Canadian Selkirk. Professor Ralph Tarr has been making a study of glaciers for years and the ice was sent by Professor Tarr and his assistants in determining the natural flow of glacial ice.

NOTORIOUS EX-BANDIT DIES WITH BOOTS ON

TACOMA, Wash., Jan. 23.—James Law, aged 72 a former member of the Jesse James gang, was found dead on his ranch at Page, twenty miles from Pasco. He died with his boots on as he had always said he would. Lawson was born in Massachusetts, starting West when a boy. During the reign of terror caused by the depredations of the James boys in Kansas and Missouri, Lawson was one of the prominent members of the gang. When the outlaws were forced to cover, Lawson came to the Northwest, and lived about Pasco for thirty years. His pet diversion up to twelve years ago was to shoot up saloons and make tenderfoot dance.

Last summer Lawson sold his ranch for cash living thereafter on a few acres near Page. He never went to town without his gun. The fact that his revolver was lying neglected in his cabin caused the finding of his body.

When given as soon as the group cough appears Chamberlain's Cough Remedy will ward off an attack of croup and prevent all danger and cause of anxiety. Thousands of mothers use it successfully. Sold by all Dealers.

Wire President Taft Today!

The Solid South is Using Sectionalism and Political
Methods to Prevent an Exposition in the West

Impress Upon the President That the West as a Unit
Demands the Settlement of the Exposition Question on Bigger and Broader Lines

Keep the Wires Busy—Impress the President With Your
Earnestness by the Number of Telegrams He Receives and the Number of People Interested

There is no solid west appreciated in Washington today.

The west has never been a believer in sectionalism. It realizes the benefit of running the government on broader business lines, but the solid south is demanding political recognition for New Orleans as the Exposition City based entirely upon southern sentiment. All the arguments in favor of San Francisco, all the advantages of location, climate and financial backing have been given absolutely no consideration whatever.

To compel recognition of the rightful claims of the west, prompt, vigorous, united action is imperative.

EVERY COMMERCIAL ORGANIZATION—
EVERY LABOR UNION—
EVERY FRATERNAL SOCIETY—
EVERY CIVIC BODY IN EVERY CITY—
EVERY BUSINESS HOUSE—

EVERY INDIVIDUAL in the west telegraph to President Taft TODAY and by the very number of telegrams he received impress him with your earnestness, your enthusiasm, your sincerity and with the unbounded interest of the west in demanding that which it has a right to expect from an administration it has so strongly supported.

A solid south committee in Congress has reported favorably a bill to create an additional exposition at New Orleans.

Mind you, this was done against San Francisco's simple request that Congress authorize the President of the United States to invite the nations of the world to participate in an exposition in 1915 created and WHOLLY financed by the people of the west without government aid.

This big business proposition of the west, backed by seventeen and a half million dollars (\$17,500,000) ALREADY available with millions to follow has been turned down by a solid south committee in Congress in favor of southern sentiment.

Telegraph today—impress the President and his party leaders by the very number of telegrams received and the interests represented

Send your wire now, using the following form as an example of the arguments which should be presented:

WILLIAM H. TAFT, President of the United States, Washington, D. C.

The west expects you and your party leaders to use all the force and power at your command to settle the exposition matter on broad business lines. (Signed).....

Also telegraph your business connections, affiliations and friends east of the Rocky Mountains to wire their Congressman and also the President at Washington to support San Francisco as the Exposition City.

As this matter comes before Congress Tuesday, January 24th, it is imperative that you act AT ONCE.

FACTS ABOUT ALAMEDA COUNTY

**One of California's Richest Counties--
Great Industrial Growth During Past
Year--Future Promises Much**

ALAMEDA county ranks third in the list of California counties in the matter of population, despite the injustice done to it in the federal census enumeration of last year; in the value of its varied agricultural products; in the volume of its industrial plants and the value of its manufactured products; and in the volume of business transacted through its banks, notwithstanding that its chief city and county seat—Oakland, does, through these institutions, approximately \$8,000,000 a week more business than Bradstreet's weekly list of the clearing houses of the United States give it credit for in the report of its bank clearings.

The census of 1910 gives Alameda county a population of only 246,121. Every citizen of Oakland knows that there are at least that number residing within the county seat alone, and that in the other cities on the eastern shore of San Francisco bay and in the towns and rural districts in the southern and eastern part of the county there are, conservatively estimated, 100,000 more inhabitants.

However, Alameda county is one of the richest agricultural counties in the state. In the number and variety of its industries, the value of its plants and manufactured products, it is handicapped largely by its proximity to San Francisco county, which has the given of the greatest number of the county's more important industries are located and which has included in its own industrial statistics the manufactured products located and operated in Alameda county.

According to the official statistics in Alameda county contains, however, sixty-one distinctly classified types of manufacturing industries and an indefinite number of minor industries not classified. In the classified industries there are employed 12,428 skilled workers. No enumeration of the skilled workers employed in the unclassified list has been made. The value of the reports at the close of the year, the capital invested in the manufacturing plants located in Alameda county aggregated \$58,652,470. This valuation is based, however, on the appraisement of the county assessor for the purposes of taxation, and it may be safely doubled without doing violence to the truth.

Vast Industries of the County.

The industries of the county turned out during the year 1910 manufactured products valued at \$62,800,085, which was an increase over the preceding year of \$2,448,230.

The value of the agricultural products raised in Alameda county during 1910 is placed at \$16,874,415, an increase of \$813,889 on the value of the output of the same branch of industry in 1909, notwithstanding that a vast area of land under intensive cultivation in the latter year was destroyed by fire and the crops during the year 1910, to meet the demands of a largely increasing population.

The developments of recent years as the result of the growth in population, the improvement of public highways and the increase of transportation facilities, have added to the industrial growth of Alameda county. The annexation to Oakland of the territory embracing the settlements of Claremont, Diamond, Fruitvale, Melrose, Alameda, Fitchburg and Elmhurst, which happened at the close of the year 1909, made great changes in land values not only in the section of the county thus annexed, but also in contiguous territory lying now outside of the enlarged limits of the county seat. Lands within the annexed territory, which, before annexation, were valued at \$500 per acre for agricultural purposes, have since then been subdivided for residence purposes, attained a value of \$2000 and \$2500 per acre. Improved agricultural land lying east of Oakland's city limits have advanced in value from \$500 per acre to \$1000 and

upwards per acre, as is shown by actual sales which have followed the cutting up of some of the large suburban estates.

Fine Interurban Service Exists.

Alameda county contains over 250 miles of electric railway trackage, all of which lies between Alameda and the shore of San Francisco bay and the northern boundary line. The steam railroads traversing the county exceed 200 miles of track. Of improved public highways there are approximately 350 miles. And in the matter of public highways, no county in the state equals Alameda county in the perfection of their construction and maintenance. The example Alameda county set in the construction of a high type of boulevard has stimulated all other counties in the state to emulate it and prompted the scheme of building a series of state highways extending the whole length of the commonwealth and paralleling one another, for which the people at the November election bonded the state to the extent of \$18,000,000 to carry out. The county authorities are also carrying out the policy of extending boulevard service to all sections as they open up the scenic attractions which it possesses and which draws thousands of visitors from all parts of the state to enjoy annually. For automobile Alameda county's good roads and large mileage of boulevards have made it especially popular to motorists and the owners of other light road vehicles from far and wide. The making of all county road improvements, such as bridges, culverts and public buildings of a permanent character of construction has also become a fixed policy of the county, therefore adding to the conveniences of its people and to the value of their lands.

Making Ready for the Future.

Physical improvements are moving with such rapidity in Alameda county at present, including, as they do, the extension of rapid transit electric railways, involving the expenditure of many millions of dollars within the next year or two, the utilization of its extensive waterfront for commerce and the reclamation of vast areas of submerged and semi-submerged lands for manufacturing purposes, involving the expenditure in the next few years to come of anywhere from \$25,000,000 to \$50,000,000, that it promises within the next ten years, if its integrity is preserved that long, to become the most populous and the most important commercial and manufacturing section of the Pacific coast. In the case of the latter they will derive the cheapest power for operation which nature has yet provided or which human ingenuity has been able thus far to develop from the productive and inexhaustible oil measures of the southern part of the San Joaquin valley and from the hydro-electric Sierran sources. Of the latter five gigantic generating plants are now delivering electric heat, light and power in the county, while others are preparing to increase the volume of horsepower in the near future.

As a section for home making by any and every class of civilized humanity, no section of California, which is recognized as the most favored of all parts of the continent in everything that conduces to human comfort and happiness, equals Alameda county. It possesses a perfect climate—not at any time in the year either too hot or too cold for perfect comfort—incomparably rich soil, vast and varied natural resources and a superbly picturesque environment which has begun to attract the attention of the independently wealthy as an ideal place for home making and enjoying all the comforts and luxuries which life in the most favored region in the world can give to any human being or human desire could.

BIG INCREASE IN VALUATIONS

WHEN Alameda county took its first decided step forward as one of the three leading communities of California in agriculture, commerce and industry, it was in the year 1905 that the people came to a full realization of the great development that was in store for them within the succeeding five years. One of the most substantial proofs of the sensational growth of the county during this half decade was its increase in population and the still greater increase in the growth of its wealth.

The population of the county in 1905 was approximately 200,000, fully 100,000 of which represented the city of Oakland. At that time the county's assessed valuation was \$51,656,242. The federal census taken last year gives a total population of about 3,000 for the county, an increase of approximately 100,000 people in five years, and for Oakland of 175,000, which is an increase during the same period of about 75,000. The total assessed valuation placed upon the county in 1910 was \$206,296,102, an increase of \$154,639,860 in the five years.

This remarkable showing proves the great transformation that has come to the county during very recent years and bears witness to the splendid progress characteristic of its people and the progress of business and industrial development. It is a record that any community should envy and in large measure the success achieved may be traced directly to the wonderful enterprise and public spirit fostered and preached everywhere and on all occasions and practiced without faltering by the people of Oakland.

But by far the most significant proof of the splendid growth of the county since 1905 is the assessed valuation from and including that year to and including 1910. They are as follows:

Line No. 1. Value of real estate other than city and town lots.
Line No. 2. Value of improvements thereon.
Line No. 3. Value of city and town lots.
Line No. 4. Improvements thereon.
Line No. 5. Improvements on real estate assessed to others than owners.
Line No. 6. Personal property.
Line No. 7. Solvent credits.
Line No. 8. Railroad assessments.
Line No. 9. University mortgages which are not assessable.

JAIL MOST MODERN IN STATE

ALAMEDA COUNTY has the finest and most modern jail west of the Mississippi River, and one of the very best in the United States. It was nearly four years under construction and cost the county in round figures \$268,000. The contractors turned the building over to the Board of Supervisors in October, 1910, and it was immediately occupied by Sheriff Barker and his administrative staff. From the standpoint of civic progress and the humane care of prisoners the jail is a striking monument to the people of the county. Federal inspectors of prisons and Mr. W. Gates of Berkeley, agent for the State Board of Charities and Corrections, who have officially inspected the institution, pronounce it an ideal jail, a very respect and without a superior in the United States. They have paid a high compliment to its administration by Chief Jailer Peter L. White, declaring that the jail is not another jail in the country that is better managed or kept in better condition than this one.

The jail, of which Washington J. Miller of San Francisco was the constructing architect, occupies a commanding site on the southwest corner of Ninth and Washington streets. Oakland, back of the Alameda county court house. It is rectangular in shape, contains three stories and a basement, and is divided into two sections—an administration wing, 55 by 36 feet, and a cell house, 42 by 89 feet. The major axis of the structure is set practically north and south, affording an orientation so that the sun reaches every part of the building at some portion of the day.

Foundations Are All of Concrete.

All foundations are of concrete and the foundation walls are of concrete faced with white granite up to the level of the water table for both administration and

cell house wings. The administration wing above the water table is faced with white granite to the cornice level, while the cell house is faced with pressed brick. The interior structural framing is of steel columns and girders, with reinforced concrete floor beams and floors.

The entrance to the administration wing, which is heated by direct steam radiators, is on Fifth street, while that to the cell house is at the north end of that wing and at the easterly side back of the court house. On the first floor of the administration wing are located the Sheriff's public office, an ante-room for the stenographer and a private office. Behind this suite is the Chief Jailer's general office, which is connected with the cell house by a steel door. Across the hall from the Sheriff's office is a servants' hall connecting the Sheriff's office with the cell house. Off the Chief Jailer's office is an attorney's consultation room and quarters for searching prisoners.

Fine Administration Building.

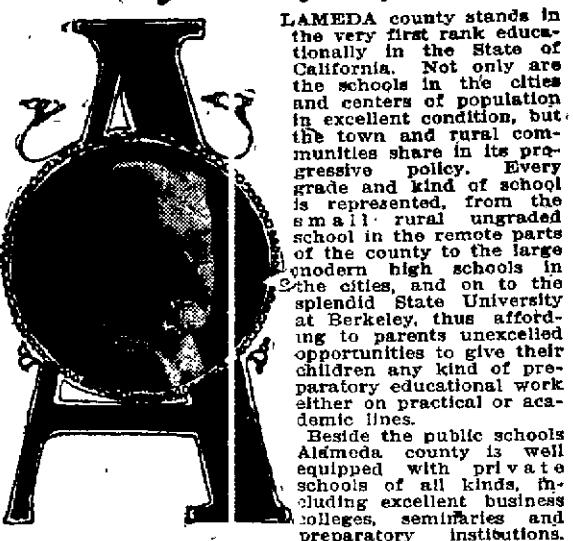

The second floor of the administration portion is entirely devoted to living quarters for the Sheriff. The entrance thereto is by means of a private stairway from the public corridor. The suite consists of a large reception hall, off which are the dining, living and sewing rooms and chambers. Traversing the rear portion of the second floor is a servants' hall connecting the kitchen, pantry, store room and living suite. There are also private baths and toilet facilities for master and help.

The matron and guards' quarters occupy the third story of the administration wing, together with the hospital department, the main jail store room and five cells of the female department. Both matron and guards' quarters have baths and toilet facilities. There is the minimum amount of wood finish throughout the jail. There are no wooden floors, all floors in the working quarters of the sheriff, jailer and

COUNTY'S SCHOOLS MODERN

Getting Ready to Introduce Manual Training and Domestic Service in the Schools—Wonderful Growth is Shown.

By County Superintendent of Schools G. W. Frick

ALAMEDA county stands in the very first rank educationally in the State of California. Not only are the schools in the cities and towns of the county in excellent condition, but the town and rural communities share in its progressive policy. Every school in the county is represented, from the small rural ungraded school in the remote parts of the county to the large modern high schools in the cities, and on to the splendid State University at Berkeley, thus affording to parents unequalled opportunities to give their children any kind of preparatory educational work either on practical or academic lines.

Beside the public schools Alameda county is well equipped with private schools of all kinds, including excellent business colleges, seminaries and preparatory institutions.

Included in the public schools in Oakland there are two departments of high school, one for the preparation of manual training high school, in Berkeley one large high school, academic, commercial and manual, together with a new system extending the course in several grammar schools into the first year of the high school.

In the large cities in the county there is a complete system of manual training and domestic science under competent supervision and a large corps of assistants, and well constructed plants thoroughly equipped for maintaining these courses. In the large cities in the county the county steps are now being taken for the speedy introduction into the county schools of manual training and domestic science. Under the direction of the agricultural department of the county the county schools in the art and practice of practical agriculture in an elementary way, and this important work will be promoted and extended as rapidly as possible.

Medical Inspection of Schools.

Medical inspection has been introduced in the cities of Oakland and Alameda. Provision is being made for abundant opportunity for recreation and physical development through the instrumentality of large and commodious playgrounds under competent supervision.

For some years there has been a growing conviction on the part of all thinking school men and women that a radical revision of the scope and character of public school education is imperatively necessary to meet the new conditions and necessities of our complex modern civilization, and no less important to the health and well-being of the people. It is only necessary to realize the value of any project proposed to be willing to respond to the financial demands necessary for its promotion. It is becoming universally conceded that the care of the health and physical development of our children, especially under the strenuous conditions of our large urban communities, has become the paramount educational interest to be conserved and that while heretofore the school has been a place of instruction for everybody and everything except our best children, we are now just beginning to realize that places must be set apart in which they may be given an opportunity to play and grow up into men and women morally and physically sound and healthy. Hence the supervised playground movement is sweeping over the country. Again, the contention that it is the duty of the school authorities to supervise the health of school children, where through negligence, poverty or ignorance, the parents will not attract the attention of the school, is also going on a rapid evolution as to the relation between the school and the community. The school is no longer considered merely a

place to study books, but much more a place which should become a social center from which to radiate civic and moral activity. Hence, the organization of mothers' and fathers' clubs for the discussion and promotion of all kinds of influences and agencies for the betterment of the community. Freedom of individuality for the teachers and concentration upon the important and fundamental has been a keynote of endeavor during the present administration of the school of county superintendent of schools, and there has been a constant endeavor to encourage the securing of good conduct among pupils with as little resort to force or violent methods as possible.

Late President McKinley's Praise.

President McKinley upon his visit to California shortly before his assassination, called to the school children of Alameda county assembled on the streets of Oakland to greet him. "It is as easy to form a good habit as it is to form a bad habit, and it is as hard to break a good habit as it is to break a bad habit." He gave an additional emphasis to the character of the building, and his words have been handed down through the years as a text to teachers and pupils in our public schools. Not that the thought was particularly new, but coming from such a source it was given an additional emphasis. It is the constant aim of those in charge of our schools in this county to earnestly endeavor to recognize that the ultimate purpose of all schooling is right conduct and to instill into the minds of school children a sense of responsibility commensurate with their unexampled opportunities.

A spirit of true patriotism pervades the atmosphere of our school life. We are endeavoring to hold up as examples worthy of emulation not so much the heroes of war, as to endeavor to inculcate among the young an admiration and respect for the victors of peace. To teach our young people to hold in patriotic affection and reverence the deeds of those heroes who have given to the world the rights of the common people, but that the highest type of real manhood and womanhood in civic affairs is found in the individual who manfully contests for the right in the eternal battle between right and wrong. The heroes of the hour in this nation is not the ability to make war, but the wisdom to deal with the industrial, economical and social problems of our complex civilization and the integrity to battle against the forces of evil which tend to demoralize and ultimately destroy the nation.

Growing Demands On School System.

Owing to the very large increase of population during the past few years, it has been a difficult problem to provide facilities to meet the growing demands, but the community has responded to the demand with a commendable spirit of enterprise. Among the most notable in the county, outside of the cities, the most notable are the erection of new grammar school buildings at San Leandro and Pleasanton, architecturally beautiful and up-to-date in their appointments. The condition of the school buildings in Alameda county is generally excellent, and the many new buildings recently constructed are in full accord with the most advanced ideas in reference to ventilation, lighting, sanitation and architectural beauty.

The following summary of school statistics will show the increase for the past four years in Alameda county. Census children, 1906, 38,708; 1910, 51,839; gain, 13,131. Total number of teachers, 1906, 738; 1910, 979; gain, 241. Graduates for three years ending June 30, 1906, 3153; for three years ending June 30, 1910, 5205; gain, 2052.

There is disbursed through the office of the county superintendent of schools for the various expenses of the school department for the entire county, including the cities of Oakland, Berkeley and Alameda, over \$3,000,000 annually. These statistics are an excellent object lesson indicating the wonderful material prosperity and growth of the communities on the east side of San Francisco bay, and the fact that the school is a place of instruction for everybody and everything except our best children, but as the most important inducement of all, an excellent school system.

BERKELEY'S ADVANCE FOR YEAR

By Wells Drury, Secretary of the Berkeley Chamber of Commerce

OUR city of Berkeley is receiving a vast amount of favorable publicity, and in this beneficial work the Berkeley Chamber of Commerce is taking an active part.

Existing institutions within our corporate limits, such as the library, the university, the industrial, social and economic conditions have combined to make this one of the best known cities of the State, and the Chamber of Commerce is endeavoring to take advantage of the natural prominence of the city.

lent aid in spreading abroad the fame of a community in which all our people take pride.

The directorate of the Chamber of Commerce is composed of the most prominent and successful business men of our city, and work harmoniously and effectively to promote a every element of strength and success. The board is composed as follows: C. C. Juster, president; B. J. Bither, vice-president; Wells Drury, secretary; Berkeley National Bank, treasurer; directors, Arthur J. Bither, Frederick H. Clark, A. J. Copeland, A. O. Donogh, B. F. Edwards, W. A. Gates, H. P. Goodman, G. A. Griesche, E. T. Harms, H. D. Irwin, C. C. Juster, W. J. Mortimer, Frank L. Naylor, G. B. Ocheltree, Friend W. Richardson, J. C. Thomas, E. Q. Turner, W. L. Woodward, W. E. Woolsey.

The most momentous event in the history of Berkeley was the election to decide whether Berkeley should be annexed to Oakland, and the spirit of civic devotion that was displayed during the campaign has endeared our people for all the trouble and expense incurred. In rejecting the cautious invitation of our highly-esteemed sister city, there was not the slightest suggestion of lack of appreciation on the part of our citizens, but it was clearly the feeling that Berkeley was capable of self-government, and prefers to maintain its integrity as a city, rather than to become merged with even so beautiful and progressive a city as Oakland. The great advantages of Alameda county's metropolis

are fully valued by Berkeleys, but their inclination is to work out their own destiny. As a university city they believe that they have problems which require the earnest consideration and judgment of a comparatively small community, and they are willing to give their best efforts to solving these problems. In a larger city these measures might be lost sight of because other topics would crowd them out of the public mind. At this point, whereas in Berkeley they will have bestowed on them the almost affectionate attention which citizens of this city appear to believe is required for the full fruition of the aspirations that tend to make this a distinctive and progressive city.

Berkeley's new charter has been the means of placing this city before the world in a desirable light. Copies of this instrument have been asked for by nearly all the large cities of the United States, and these have been supplied freely by the Chamber of Commerce. Several thousand copies have been distributed, and not confined to this country, but nearly every civilized nation has been favored, including England, Germany, France, South Africa, China, Japan.

The manufacturing interest of Berkeley are being developed rapidly, and the outlook for the future years the amount of raw material received for use in Berkeley factories has increased to more than five times in volume and seven times in value of output. Berkeley has shown great enthusiasm in supporting the Exposition at San Francisco for the Panama-Pacific Exposition. In this behalf the Berkeley Chamber of Commerce is constantly active, distributing literature and putting forth every possible exertion to help San Francisco in this great fight for the greatest exposition of the age.

Every day in the year letters are written to correspondents who send from every quarter of the country for literature concerning California, and in every instance the most comprehensive information is extended. All parts of Alameda county being included in the material distributed, and when requested information concerning the State is included. In addition to referring the inquiries to the California Promotion Committee for specific facts desired.

steel cases having combination and key locks. Each cell door has an emergency prison padlock. There are five locks between every prisoner and the jailers' corridor, which is also inclosed in steel bars and screens.

In each cell room and at other points throughout the building are interior standpipes under water pressure and with fire hose and nozzles ready for use, either for fire, although the building is practically of fireproof construction, or to subdue prisoners if necessary.

In each cell is a special enameled iron prison toilet and lavatory, together with two movable canvas hammocks. Each room in the juvenile and witness departments contains a shower bath, and in the female department there are bathtub and wash trays. Each cell room also has hot water for cleansing toilets, etc.

Culinary Arrangements Complete in Detail.

All foodstuffs sent to the kitchen on the top floor of the cell house and all cooked food sent down to cell rooms for distribution are carried by an automatic direct electric dumbwaiter, requiring, but the pressure of a numbered button to bring the car to any desired point, while the basement of the cell house contains the oil-burning power plant, with a supplementary pneumatic plant, supplying heating and ventilating machinery. In the pump house on the cell house roof is machinery to distribute water throughout the building and there is also in the basement a bath and toilet for the use of new prisoners when entering.

The main cell rooms and all prison departments are heated and ventilated by the plenum system of indirect supply. The system is arranged to make from six to eight complete changes of air per hour, according to

MODOC COUNTY IS LAND OF MILK AND HONEY

Abounds in Fertile Farm Acreage, Orchards and Green Grazing Places.

GOLD MINES ARE MANY AND VERY VALUABLE

Mountains and Plains Are the Haunts of Large and Small Game.

Hitherto so little has been known of the resources and opportunities of Modoc county that people now are loath to believe their own eyes when they actually see the products and displays from this section. This county affords the homemaker a chance to get in on the ground floor for some of the choicest land in all the West.

Hon. W. T. Cressler, in his address before the irrigation committee of Sacramento, California, will not believe me when I tell you that we have land in Modoc county that is now producing 60 and 70 bushels of wheat to the acre and over a hundred bushels of barley, yet the soil is not rich, it grows on every ranch in this county. Stock, hogs, sheep and cattle, do better nowhere else.

TIMBERED HEIGHTS.

This county is a succession of lofty timbered mountains, elevated plateaus and beautiful river and fertile valleys with living streams from the wooded mountains which tower above them. The principal valleys are the Goose Lake, Surprise, Pit River and Big Valley. There are 35,000 acres of commercial timber in Modoc county, sugar and yellow pine, cedar and fir. There are fourteen sawmills now cutting lumber, which scarcely supplies the increased demand for lumber. Lumber runs from \$16 to \$16 per thousand.

Cattle and stock raising have been the principal industries, and are yet, but there are certain valleys where fruit raising and agriculture will take the lead. Modoc county needs dairymen and fruit growers to lead it in cutting up those large ranches into orchards. Little attention is given to the dairy business as yet. However, there is no county that offers more favorable opportunities.

The fruit business has now passed the experimental stage in some sections of the county, those of Lake valley and especially Davis creek on the east side of the lake.

GOOD APPLE YIELD.

Thirty years ago John Briles planted an apple orchard. For twenty years a succession he has gathered a crop of apples without a winter season. He now ships his fine winter Bavana apples and others, and gets handsome returns. On this same ranch he is finding the very choicest peaches, pears, apricots, cherries, plums and every kind of fruit. The fact that this land is 4800 feet above sea level and produces every year makes it exceptional fruit land. J. M. Fulton, far-seeing business man, said of the Davis creek section:

"I believe that when the country around Davis Creek is planted to orchards, it will produce from 40,000 to 60,000 standard gauge carloads of fruit per annum."

It should be said in this connection that Mr. Briles sent six varieties of apples to the World's Apple Show and took six premiums for the same in October, 1910. There are fruit sections in Surprise Valley that will grow as fine fruit as any place and transportation will open it up.

It is interesting to note that companies are forming in Davis Creek and placing these lands on the market in 10 and 20-acre tracts—even the famous Briles orchard lands are for sale in small lots. There are many rich gold mines in Modoc county. Near New Pine Creek recently several fine strikes have been made. There is much excitement over the prospect.

Three railroads have been surveyed through this county and two of them are pushing the work rapidly. The Nevada-California & Oregon line has now been completed with 200 miles of Davis Creek and will be there by April 1. This road is to be a broad gauge soon and will rapidly push its line on to Pendleton, Ore.

The Southern Pacific is now building from Klamath Falls toward Lake View and will no doubt run through Goose Lake and Altus.

HUNTERS' PARADISE.

In all of the west there cannot be found such paradise for the hunter and fisherman. Game consists of bear, antelope, deer, grouse, prairie chickens, geese, swan, ducks, etc. The lakes, rivers and streams are teeming with fine fish. The large, beautiful, gamey lake trout is found in abundance in Goose Lake.

The beautiful scenery will make a rich man well. Modoc is a most healthy and beautiful country. It is room for all. Come on and grasp some of these great opportunities.

We shall be pleased to answer any inquiry about our country. Address, Yours truly, J. J. PAYSEY, Davis Creek, Cal.

TINY MOUSE THROWS TOWN INTO DARKNESS

LAUREL, Del., Jan. 23—A peculiar accident at the plant of the Sussex Light and Power Company shut off the current from all its lines for nearly an hour and put three towns into darkness. An inquisitive mouse nosing around the generator switches made contact with its body short circuited the system. The mouse was cremated and connections which required about an hour to repair were burned out.

use and necessity. This insures absolutely pure air at all times.

MRS. MARTIN TO VISIT HOME WITH OFFICERS

About \$100,000 worth of the proposed \$250,000 of street work has been finished and the contractors and city fathers are striving hard to have the entire job completed by the end of this month.

NEWS FROM LEGISLATIVE HALLS

LOCAL OPTION HAS LEGISLATORS ON ANXIOUS SEAT

Fear Heads Will Fall No Matter How Vote Is Cast.

Special to THE TRIBUNE.
SACRAMENTO, Jan. 23.—The question which gives most annoyance to many members of the legislature is that of local option because, in the estimation of Assemblyman Held of Ukiah and not a few others, many of the lawmakers who have political ambition will be cutting off their heads whenever they may vote on the proposition.

There has been some discussion as to whether this bill is to be regarded as an administration measure; also whether or not Governor Johnson would use his influence in having it set aside this session of the legislature.

The consensus of opinion is that the governor will not interfere in any manner with the legislators on the subject, more especially because his running mate, Lieutenant-Governor Wallace was elected with the full knowledge that he was not alone in favor of local option but that he was, at the same time, a prohibitionist. He was elected and had a larger plurality, by a couple thousand votes, than had Governor Johnson himself.

COMMITTEE TO DECIDE.

There is an almost absolute certainty that the local option bill will be recommended for passage at the meeting of the joint committee on public morals in the house and senate which is to be held tomorrow night, and there is a strong likelihood that the measure will pass both chambers, though there will be more opposition in the senate than in the house. Assemblyman Griffin of Modesto is one of the most ardent believers that the vote against the proposition will be heavier than is now anticipated.

There has been talk of a brewers' lobby coming here, tonight, and that this is to be followed, tomorrow, by representatives of the vineyards and wineries; but it is not expected that there will be any pronounced display of opposition to the measure, because it is said that the liquor men feel that, in the event of the liquor men on the subject, some of the towns in the southern part of the state which have gone dry may again return to the granting of licenses. Those of the liquor men who have appeared here, and they have been very few, say that they favor the holding of these attempts to vote a place dry at the same time and at intervals of two years, instead of having special elections at any and all periods of the year, just as the desire to hold on election on the subject strikes the people.

NOT YET IN SENATE.

There has, as yet, been no local option bill introduced in the senate and it will not be the desire of local option forces in the lower house to rush the Wylie measure through that place and then shift the thought to the senate. The Wylie bill is not considered a drastic measure by the "dry" men nor yet by some of the members who do not wish to submit that question to the people. It provides for the union of various kinds, including sections of counties outside cities and incorporated towns. The bill is not yet introduced in the senate and it is not expected that it will be introduced in the senate until after the election on the subject of the measure.

COUNTY OFFICER ATTENDS SESSION AT SACRAMENTO

PERRY A. HAVILAND, County Surveyor, who has returned.

SEEK SOLUTION OF TUBERCULOSIS PROBLEM

LONDON, Jan. 23.—In a letter to Hail Caine, who has been advocating government measures to stamp out consumption, principally through the state taking charge of all consumptives, David Lloyd George, chancellor of the exchequer, announces he has already considered the practicability of dealing with this problem in connection with his forthcoming scheme of invalidity insurance.

The chancellor says the principal difficulty is financial and that it will be especially hard to estimate the maximum contribution that can be levied upon workmen.

FIREMAN SLIGHTLY HURT.

BIRMINGHAM, Jan. 23.—Brushed from a fire engine by the branch of a tree, a fireman of the Birmingham fire department was slightly hurt today.

A fire engine, No. 5, was responding to a call at the residence of R. R. Samuels, 2820 Le Conte avenue, at a late hour Saturday night. Lieutenant T. Andrews sustained a sprained shoulder.

he is the master of counties, cities or incorporated towns. The result is to be considered separately with respect to those political divisions so that if any cities or towns in a county vote for license, license to sell liquor must be issued in those cities or towns regardless of the fact that the rest of the county may have gone dry by a heavy majority. Any town, city or other political division failing to carry the no-license idea at a political unit to the supervisors, the conclusion or the trustees, as the case may be, in the matter of counties, cities or incorporated towns. The result is to be considered separately with respect to those political divisions so that if any cities or towns in a county vote for license, license to sell liquor must be issued in those cities or towns regardless of the fact that the rest of the county may have gone dry by a heavy majority. Any town, city or other political division failing to carry the no-license idea at a political unit to the supervisors, the conclusion or the trustees, as the case may be, in the matter of counties, cities or incorporated towns.

INSURANCE MEN OF STATE DRAFT MEASURE

Assemblyman Callaghan Will Handle Proposed Law in Lower House.

(Special to THE TRIBUNE.)
SACRAMENTO, Jan. 23.—Assemblyman Callaghan of Oakland is in conference with the leading insurance men of Oakland for the purpose of introducing a measure affecting only the business and, at the same time, the patrons of insurance companies all over the state.

The measure has been under consideration for some time and into it has been put the benefit of the experience of insurance experts who have been long in the business. Fred J. Bailliet of Oakland, who has had considerable to do in the preparation of the measure, has been quoted as saying that the bill will be of great advantage to the insured as it will to insurance agents, generally.

Assemblyman Clark of Oakland has introduced a second bill on the subject of mutual fire insurance companies, but the measure contains only a correction of some of the features included in the earlier measure.

He has also introduced in the assembly the referendum and recall which is ready to go to the senate. It is the purpose of the author of the bill to extend the recall to all officers in the state, not even excepting the judiciary.

SURVEYOR RETURNS.

Perry Haviland, county surveyor of Alameda county, returned to Oakland last night after having been here for a couple of days in attendance upon the convention of the State County Surveyors' Association of California. This organization was formed last year in the office of Perry Haviland in San Francisco and includes practically all the county surveyors in this state. It is inspired by the motive which has led to the organization of the county treasurers, the county auditors, the county clerks and the sheriffs of California and which has been the means of bringing the supervisors of devoting ways of performing, in a most satisfactory manner, the duties devolving upon them. The convention appointed a committee to examine all the bills now before the legislature to ascertain those which affect the management of the offices of county surveyors, propose to direct the manner in which their work is to be done.

NOT TO LOBBY.

It is not the purpose of this committee to lobby, but simply to set forth with authority and to be done by the surveyor for the benefit of the state. There are bills here now which, if passed, would make it impossible for county surveyors to do anything of a serviceable character, more especially when there are to be many millions to be spent in the making of systematic roadways connecting all parts of the state.

The county surveyors say that they desire to have nothing to do with the management of the state. They are not interested in the management of the state, but they are interested in the management of the state. They are not interested in the management of the state, but they are interested in the management of the state.

Senator Strobbridge of Alameda county stated publicly to Senator Hurd, the author of the bill, that he was especially because, according to one of the sections of the bill, it shall be the privilege of all counties to assist in making the display of any building which is to be erected on any public ground. The bill is to be introduced in the senate tomorrow.

ELMHURST BOARD WANTS OPEN TOWN

Writes Assemblyman Smith Proposed Sunday Saloon Closing Is Objectionable.

SACRAMENTO, Jan. 23.—Assemblyman Frank Smith of Oakland has received a letter from Secretary of the Elmhurst Board of Trade setting forth that the board is opposed to the proposed closing of the saloons of the State and, in a special manner, those of the kind of Elmhurst, which is now a part of Oakland. It further sets forth that those of the residents of that section who go to church on Sunday believe that frequenting the saloons, and the refreshment resorts involves too much restriction upon the personal liberty of the individual and is not called for in the urgent grounds of the welfare of the community.

Smith, in the opening days of the session, introduced a bill on the regulation of automobiles. It proposed to compel the driver of an automobile which is to be driven in collision with a vehicle containing people or with a pedestrian to immediately bring his car to a stop, give to the persons most interested the place of residence of the owner of the automobile and, at the same time, to lend assistance as might be required in caring for any person who might be injured in the collision.

Since then, he has learned that there have been several bills on the same subject introduced in each house of the legislature. He is moving, therefore, for a conference between the authors of those bills with a view to the framing of a composite bill which will have the best features of each so as to make it appeal favorably to the legislators and warrant its passage.

The same assemblyman has received the commendation of a number of his constituents because of the free text-books for the children of the public schools in the several grades below the high school.

BRIGHT PROGRAM AT ORPHEUM WINS BROADSIDE OF APPLAUSE

BONITA at the Oakland Orpheum.

(By LEO LEVY.)
The bright and breezy, and thoroughly delightful Alice Lloyd, talks to wear out her welcome and entered on her second week yesterday at the Oakland Orpheum to the accompaniment of a broadside of applause. She had a new song or two but last week's repertoire was good enough for the crowd and her friends weren't happy until she had finished. As Lloyd splashed off as a bathing girl.

SENATOR STROBRIDGE DECLARES BILL WOULD LAY DOUBLE TAXATION ON COUNTIES.

SACRAMENTO, Jan. 23.—Los Angeles has devised a scheme for the formation of a state exhibit of resources, collecting and preparing the same and forwarding and returning it to and from domestic and foreign exhibitions, fairs, congresses and public gatherings. The determination as to whether the exhibit is to be made is to rest with the state exposition commission.

Senator Strobbridge of Alameda county stated publicly to Senator Hurd, the author of the bill, that he was especially because, according to one of the sections of the bill, it shall be the privilege of all counties to assist in making the display of any building which is to be erected on any public ground. The bill is to be introduced in the senate tomorrow.

SEEKS CHANGE IN STATE ACCOUNTING.

SACRAMENTO, Jan. 23.—A radical change in the system of accounting in this state, so that there will be uniformity in the reports of the financial transactions of cities and counties, is to be proposed by the state controller and to him all officials having charge of these financial transactions must make reports of the fiscal year preceding the time of making the reports. If there is reason to believe that the facts are incorrect, the controller is permitted to have the same audited. If there is reason for such an investigation for two successive years, the fact is to be laid before the grand jury.

Supervisors who take pleasure in attending the annual meetings of the Supervisors' organization of the state for the purpose of hearing subjects discussed which are constantly coming up before such boards, will appreciate a bill by Mr. Gomer which authorizes their members to attend such meetings and which allows them their actual expenses. Heretofore, the supervisors who have been in the habit of attending such meetings, even those who had gone to great trouble in preparing papers to be read at the meetings, have been compelled to pay the expenses out of their own pocket.

STETSON MEASURE UNDERGOES CHANGE

SACRAMENTO, Jan. 23.—The constables and deputy sheriffs of the state and, in a special manner, of Alameda county, who are not under direct pay, are not represented by a member of the legislature. Any town, city or other political division failing to carry the no-license idea at a political unit to the supervisors, the conclusion or the trustees, as the case may be, in the matter of counties, cities or incorporated towns. The result is to be considered separately with respect to those political divisions so that if any cities or towns in a county vote for license, license to sell liquor must be issued in those cities or towns regardless of the fact that the rest of the county may have gone dry by a heavy majority. Any town, city or other political division failing to carry the no-license idea at a political unit to the supervisors, the conclusion or the trustees, as the case may be, in the matter of counties, cities or incorporated towns.

ROCKEFELLER GIVES TO AN OLD FRIEND

NEW YORK, Jan. 23.—The sexton of the Fifth Avenue Baptist church is \$20 richer today because John D. Rockefeller has given him \$20. Rockefeller, who has been in the city for several days, arrived at the church long before the regular services began and shook hands with many friends.

He was especially pleased when he saw his old friend, the sexton, who had been absent for several days, owing to a fall when putting the Christmas tree up in the Sunday school.

Rockefeller pressed the sexton's hands warmly and left some lint in his palm. When Rockefeller had passed the church, the sexton looked at what he thought was some message of a piece of paper and found it was a \$20 bill.

SAILORS ARE KILLED FOR INSULTING WOMEN

BERLIN, Jan. 23.—A Constantinople dispatch to Frankfurter Zeitung says that a number of English sailors, who went ashore at Durrani, insulted several Muslim women. The insulted women were killed and killed several of them. A British war ship shortly afterward shelled Durrani.

London reports say officials at the Admiralty and Foreign Office say they have heard nothing of the shelling of Durrani.

MANY DEMANDS MADE BY GARMENT WORKERS

CHICAGO, Jan. 23.—Some 2,000 garment workers who have returned to work pending a settlement by arbitration of the differences which caused a strike of 40,000 workers in that city last week, have formulated demands which will be submitted to the arbitrators.

The principal disputes to be decided by the arbitration board are demands for a 30 per cent increase in wages, reduction in hours to a 48-hour week for cutters and a 54-hour week for tailors, abolition of the system of fines and the forming of shop committees for the adjustment of future disputes.

BOYHOOD AND ALCOHOL

There are some things too awful to contemplate—one is the giving of alcohol in the guise of medicine to boys. We believe Scott's Emulsion is the only preparation of Cod Liver Oil that contains absolutely no alcohol, drug or harmful ingredient of any sort. ALL DRUGGISTS

AMERICA OFFERS TO END DISPUTE

Uncle Sam Tenders Good Offices in Boundary Trouble.

WASHINGTON, Jan. 23.—In response to the request of Hayti, the American government has formally rendered its good offices to both Hayti and Santo Domingo in a friendly effort to bring about a settlement of the territorial dispute, that is seriously threatening the peace of the two countries.

Secretary Knox sent telegrams to the American ministers at Port au Prince and Santo Domingo City directing them to inform the respective governments to which they are accredited that the United States stands ready to intervene. Official advisers indicate that the situation is extremely serious. While both countries have taken a definite stand from which neither will recede, it is believed they are anxious to avoid war. This belief is given rise to the impression that the offer of the United States will get to the bottom of the dispute.

PASSES OUT BY MEANS OF CHLOROFORM AND GAS

LOS ANGELES, Jan. 23.—William F. Richards, a dentist, was found dead last night in his office in Santa Pasadena. In his hand was a bottle of chloroform, and the gas was turned on full force. The office door was locked and the only occupants of the building detected the odor of gas which led to the door being broken open.

Home Treatment for Tuberculosis

Many people have cured themselves of Tuberculosis by a very simple, inexpensive method known as the "Chalk-Line" method. This alternative is not a new method. It has been known for many years and several years' cures resulting after other methods had failed. No specialist's fees, no radiation charges, no traveling expenses.

Belknap's Alternative has cured many people at home, where their dear ones encourage them and give them that tender care which money cannot buy.

After you have thoroughly investigated our affidavits and testimonials—feeling sure in your own mind that Belknap's Alternative has cured so many others, surely must help you start taking the Alternative. Your improvement should be gradual, but certain.

If you have been faithful to Belknap's Alternative, you will be amazed at your improvement. A statement from one who knows follows:

220 So. 4th St., Colwyn (Barby), Pa. Gentlemen:—For four years I was troubled with cough, which gradually became worse. I had night sweats and pains in my chest. I was losing my appetite and had become thin and weak. I could not attend to my household duties. A physician pronounced my case Consumptive. Not long after this I was examined by the physicians of the Polyclinic Hospital; they also pronounced the disease Consumptive. Hospital treatment would cost me \$2,000 to \$3,000. I had tried Belknap's Alternative. Before I had taken the medicine three weeks I had passed my first night without coughing and sleep. My appetite improved and I was able to do my work. I was completely cured for ten years. I strongly recommend it.

(Signed) MARY WASSON, Belknap's Alternative cures Bronchitis, Asthma, Hay Fever, Throat and Lung Affections, who are suffering from Cough, colds and other leading ailments. Belknap's Alternative, Philadelphia, Pa. For additional cures.

Save Money Avoid Pain

Teeth Extracted Without Pain. Acknowledged to be the easiest and least painful extraction in the world. We have decided to make our best sets of teeth for \$2.50.

SET OF TEETH \$13.50
2222 GOLD CROWNS \$2.00
GOLD FILLINGS \$1.00
SILVER FILLINGS \$1.50
BETTER DENTURES \$2.50

No charge for extracting when teeth are ordered. A written guarantee for 25 years with all work.

NEW S. P. DEPOT IS UNDER WAY

Engineers Drive Stakes, Making Site of Fine \$275,000 Structure

Old Building and Express Company to Move to Temporary Locations

Preliminary work on the \$275,000 Southern Pacific depot at Sixteenth Street was commenced this morning when Assistant Engineer H. M. Lull of the engineering department of the Southern Pacific with his assistants, staked out the site to which the present depot is to be removed during the construction of the new building.

The old depot will be shifted 100 feet south which will necessitate the removal of the Wells Fargo building to temporary quarters until the plans for the latter company's new structure are completed.

WORK TO BE RUSHED

The preliminary work which was completed this morning will be followed at once by the staking out of the site for the new Southern Pacific depot. As soon as this work is completed the construction will be rushed with all the usual enterprise shown by that corporation.

The new building will be a thing of beauty and will be an ornament to Oakland, waterfront giving travelers an adequate idea of the city's business center which the present station fails to do.

INAUGURATE MODERN SYSTEM

The completion of the new depot will come at about the same time as the installing of all the local lines into an electrical system making a railroad system for Oakland and vicinity of an up-to-date character.

FIGHT AT ALBANY STILL IN DOUBT

Fifth Joint Ballot for United States Senator Taken; Lea Elected.

ALBANY, N. Y., Jan. 22.—Fifth joint ballot for U. S. Senator stand: Democrats—Sheehan 20, Sheehan 15, Parker 11, Herrick 10, Littleton 10, O'Brien 10, Kernan 10, Governor Mills 10, Van 10, Republicans—Deane 10, Nelson 10, Total vote cast 194 necessary to choose 99.

SITUATION IN IOWA

YES MONTE'S TALK.—The joint ballot for United States Senator in the Iowa Legislature today was as follows: Young 21, Frank 20, Porter 12, Garst 7, Frank 2, Porter 12, Necessary to elect 50.

LEA ELECTED

NASHVILLE, Jan. 22.—The deadlock in the Tennessee Legislature over the election of a United States Senator, succeeded today. The election of the United States Senator in the Tennessee Legislature today was as follows: Young 21, Frank 20, Porter 12, Garst 7, Frank 2, Porter 12, Necessary to elect 50.

DEADLOCK UNBROKEN

HILLMAN MONT.—The joint ballot for United States Senator in the Iowa Legislature today was as follows: Young 21, Frank 20, Porter 12, Garst 7, Frank 2, Porter 12, Necessary to elect 50.

SHOPLIFTER CAUGHT

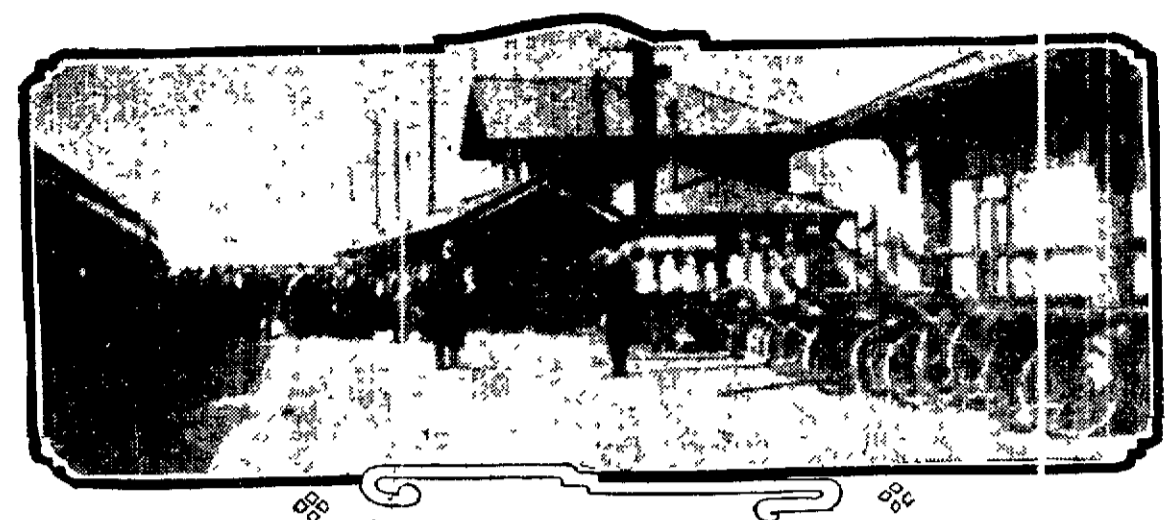

SAN FRANCISCO, Jan. 22.—Police Officer George Graham today arrested a shoplifter who had been caught in the act of stealing a pair of shoes from a store in the city.

Auction Sale

On Monday, January 23, at 2 o'clock in the afternoon, the property of the late George Graham, deceased, will be sold at public auction by the undersigned.

Old Southern Pacific Depot at Sixteenth Street Which Soon Will Be Moved to Make Room for a New \$275,000 Structure.

PARMALEE BREAKS RECORD FOR AVIATION ENDURANCE

Daring Birdman Stays in Air Three Hours and Forty Minutes; Ely Flies to Tetrazzini at Ingleside

SAN FRANCISCO, Jan. 23.—Philip Parmalee, member of the Wright team, the newest hero of the San Francisco aviation field, today broke the record for the longest solo flight ever made in America. When launched with cold and with but a few drops of gasoline left in his tank, Parmalee sailed gracefully to earth a few minutes before 1 o'clock, and was the possessor of the new American record for duration.

BREAKS ENDURANCE RECORD

For 3 hours and 40 minutes Parmalee held the record for the longest solo flight ever made in America. When launched with cold and with but a few drops of gasoline left in his tank, Parmalee sailed gracefully to earth a few minutes before 1 o'clock, and was the possessor of the new American record for duration.

Ely, star of the rival camp of Curtiss flyers and hero of last week's sensational flight to the cruiser Pennwauk, was first to grasp the hand of Parmalee as the new record holder. The two men then embraced each other in a friendly manner.

INAUGURATE MODERN SYSTEM

The completion of the new depot will come at about the same time as the installing of all the local lines into an electrical system making a railroad system for Oakland and vicinity of an up-to-date character.

NAGEL PLEADS FOR ANOTHER CHANCE

Confessed Firebug Declares He Was Urged on by Companion.

Following the conviction of his partner and the sentence of William A. Schenckfeld to 10 years in prison as the chief instigator in the fire at the Hotel California, Nagel today pleaded for another chance.

AN INVESTIGATION will be made in the case which was continued to hear a report of the probation officer.

According to the story told by Nagel and Schenckfeld, the latter had actually fired the building early on the morning of August 13, but both stated that Schenckfeld had prompted the act and that he had merely acted as a lookout.

Both young men came to this country five years ago from Russia with their parents now in the United States. They had been in the country for five years and had been in the country for five years.

ACCUSED SOCIETY MAN

DISMISSED BY COURT

SAN FRANCISCO, Jan. 23.—Charles C. Guimond, society and club man, today was dismissed by the court after being charged with the murder of a woman in the city.

On Monday, January 23, at 2 o'clock in the afternoon, the property of the late George Graham, deceased, will be sold at public auction by the undersigned.

WILL ISOLATE ALL PLAGUE SOURCES

Chinese Take Systematic Step to Stamp Out Spread of Disease

HARBIN, Manchuria, Jan. 23.—Tudor, a suburb of Harbin, and the principal plague spot of Manchuria is to be isolated as the first systematic step to stamp out the disease. The movement is due to the pressure brought to bear by the Russian government which realizes the seriousness of the situation.

THREE PLAGUE SOURCES

A Russian plague unit which just completed an inspection of Harbin, has discovered three plague sources in the neighborhood of which 1,000 persons reside. Corpses are piled high in the streets and in the yard adjoining the homes. Last week, 10 deaths in Tudor were reported.

NOTE TO MINI TERS

PEKING, Jan. 23.—The government is sending a note to the Chinese minister abroad instructing him to inform the governments to which it is accredited to study the plague and apply means for its extermination. The government offers to bear the expenses of the crusade.

DIES OF PLAGUE

PEKING, Jan. 23.—A Russian soldier who had moved to Harbin and died of the bubonic plague today. A Russian soldier who had moved to Harbin and died of the bubonic plague today.

AMERICANS GUARD CEIBA RESIDENTS

SAULS BUILD BARRICADES FOR PROTECTION OF NON-COMBATANTS IN HONDURAS.

NEW YORK, Jan. 23.—The Herald's correspondent at Ceiba, Honduras, in a dispatch published today says that thirty American bluejackets and ten U. S. Fish warships were landed on Saturday night and are engaged in building barricades for the protection of non-combatants in the event of an attack on the town by the Bolilla revolutionaries.

A section of the city was set apart by the American naval commander more than a week ago as a neutral zone in the event of a battle.

PALTRY SHOWING OF U. S. COMMERCE

Congressman Makes Startling Statements to Members of Marine Congress.

WASHINGTON, Jan. 23.—Imagined shipping lines and a prohibition with the United States and other countries calculated to injure the foreign trade of the United States are the subjects of a speech made today by Congressman Charles McNary of Oregon in the House of Representatives.

AMERICA'S CRYING SHAME

Let of this vast sum less than eleven per cent was carried in American ships. With all our vast sea and air commerce, our merchant marine resources, this nation today has 26,000 tons less of shipping on the high seas than we had a century ago. Our flag is practically disappeared from the seas. It is but a memory in most ports of the world.

WANTS VESSEL TO PROTECT INTERESTS

Rioting Continues at Hankow and Several Foreigners Are Injured.

Legations Are Being Protected by Detachments of Chinese Troops.

HANKOW, Jan. 23.—American Consul General Robert Brent Mosher communicated with his government today asking that a gunboat be sent to this port to protect American interests in the event of a continuation of the rioting begun yesterday.

The disorders followed the circulation of a report that the British police had killed a coolie. During the rioting considerable damage was done and British and German marines were landed from gunboats to defend the foreign community.

Nothing between the Chinese and the authorities supported by the British police. The rioters have been checked in their lawlessness and have now instituted a boycott against all foreigners. Business in the city has been suspended.

Chinese Take Systematic Step to Stamp Out Spread of Disease

JAILED DRUNK BIG SAUGHTER OF FEDERAL TROOPS

Despondent Old Man Takes Life While Awaiting the Patrol Wagon.

He Was Placed in the Alden Lockup for Being Intoxicated.

Finding himself incarcerated in the Alden lockup at telegraph avenue and Forty-sixth street when he received word that his wife had been killed in a fight two days ago at Ojinaga, he took his own life by hanging himself from the bars of the cell door.

The suicide is the culmination of a particularly pathetic story. Jones, who has lived at 416 Thirty-eighth street for many years, lost his wife some months ago and has since been constantly afflicted with melancholia.

TAKEN IN CUSTODY

Last evening after being given a drink of beer he went to a saloon and later wandered forth in a drunken condition. He was found by Patrolman J. W. Temple at Forty-eighth and Telegraph avenue who took him into custody and placed him in the Alden lockup, leaving the old man in a sleep in the cell.

When he sent to the Central station the patrol wagon was in use transporting three loads of Chinese gamblers to the prison and was kept in requisition waiting for the morning. Patrolman J. W. Temple acted as witness. Officer W. H. Smith opened the cell door they found they had come too late.

HANGED HIMSELF

It is the belief of his son, Benjamin R. Jones, that the aged man had recovered from the effects of the liquor and finding himself once more under the discipline of having been arrested for drunkenness, had taken his life. On the morning of the hanging, the son was told by the police that the man had been found hanging from the bars of the cell door. The body was removed to the morgue where an inquest will be held.

LITTLE MAN HAD MIGHTY BIG GUN

Brave Youth Grasped Bandit's Weapon and Put Him to Flight.

Confronted by a diminutive highwayman with a large revolver in his grasp, W. M. Rigdon, an 18-year-old youth who is over six feet in height, leaped upon the outlaw and attempted to wrest the weapon from his hand. The two engaged in a struggle and the thief escaped in the darkness after "ringing himself from the grasp of the young athlete."

The attempt at robbery occurred Saturday night at the intersection of Harrison and Twenty-third streets near the Laguna Vista apartments in which Rigdon resides. He was returning to his home shortly after 6 o'clock when he was not far from the corner suddenly found himself facing a highwayman who had leaped from behind a post.

Put up your hands and tell me what money you have, demanded the thug, who was masked and talked in a gruff tone.

I have no money, replied Rigdon. Watching his chance he suddenly struck the leveled weapon aside and grasped the man by the right arm. A struggle ensued and Rigdon attempted to struggle the robber while shouting for the police. The man quivered from his hold, however, fled down the street with Rigdon at his heels and disappeared in a twinkling.

Rigdon at the notified he police and gave a good description of the man.

BURGALARIES ARE PLENTIFUL

The following burglaries have been reported to the police: Luke Shore avenue, residence entered by burglars last night and jewelry and articles of clothing valued at \$20 stolen.

G. M. Curran, 1217 Marine street, residence entered by burglars last night and jewelry and articles of clothing valued at \$20 stolen.

J. H. Wilson, 207 Broadway street, residence entered by burglars last night and jewelry and articles of clothing valued at \$20 stolen.

J. H. Wilson, 207 Broadway street, residence entered by burglars last night and jewelry and articles of clothing valued at \$20 stolen.

J. H. Wilson, 207 Broadway street, residence entered by burglars last night and jewelry and articles of clothing valued at \$20 stolen.

BIG SAUGHTER OF FEDERAL TROOPS

Revolutionists Score a Signal Victory in Battle at Ojinaga.

More Cavalrymen Rushed to Border Line Near Ciudad de Juarez.

PRESIDIO, Tex., Jan. 22.—At 11 o'clock on Jan. 23—11 fully 100 of the government's troops were killed in the fight two days ago at Ojinaga. It was stated that the heavy casualty list was due to an ambush.

FEDERALS DECEIVED

A flying squadron of revolutionists is said to have deceived a large force of General Duran's troops on the border line near Ciudad de Juarez. The revolutionists entered a narrow mountain gorge and the federal troops followed.

When at least 200 of the pursuing troops had entered the gorge, a deadly fire was poured into them from the heights above. Retreat was ordered but before General Duran's men could escape at least half their number had been killed and other wounded.

MORE CAVALRYMEN

EL PASO, Tex., Jan. 23.—An additional 100 Mexican cavalrymen arrived yesterday at Ciudad Juarez to be distributed along the border to enforce centrally laws. The military force now centering at Juarez numbers 500 men.

TRIBUTE PAID TO JUDGE WILLIAMS

Body of Late Oakland Resident Carried to Last Resting Place.

The funeral of the late Judge Walter Scott Williams, formerly secretary of the Grand Lodge of Good Templars and one of the leading lawyers of Oakland, was held this morning from the First Methodist Episcopal church. Fourteenth and Clay streets, where the members and friends of the deceased paid their last respects. There were private services held at the Williams residence, 400 Orchard street, and the body was carried to the church by Rev. George W. White, pastor of the church, and Rev. W. C. Poole, assistant pastor. During the service the pastor of the First Methodist Episcopal church gave a eulogy on the life of the deceased. The service was held at 10 o'clock.

But when Christ calls his people, he calls them to follow him. He calls them to follow him in the path of duty and in the path of righteousness. He calls them to follow him in the path of love and in the path of peace. He calls them to follow him in the path of truth and in the path of justice. He calls them to follow him in the path of holiness and in the path of purity. He calls them to follow him in the path of life and in the path of eternal glory.

Something New for
Coughs.

Make It Yourself.

Until the discovery of the wonderful new drug product, Mentho-Laxene, everybody had to rely on ordinary cough mixtures, usually composed of morphine, opium, and the like, but now the most effective and powerful cough syrup is made at home with essence mentho-laxene. Here is the formula:

Essence mentho-laxene... 2 1/2 Ozs.
Granulated sugar syrup... 12 1/2 Ozs.

Buy of your druggist, or have him order it from the wholesaler. Two half-ounce bottles of Mentho-Laxene empty it into a pint bottle and fill up the bottle with granulated sugar syrup. To make the syrup up, use a half pint of water, a half pint of boiling water, stir it, let cool and mix it with the mentho-laxene.

This makes a fine curative laxative cough syrup superior to anything you can buy at four times the price. Take it in teaspoonful doses 6 to 10 times daily. It loosens the tightest cough in an hour, and is fine for old people and for children. They like to take it, and by its tonic cleansing, healing and laxative properties it cures colds, whooping cough, croup and other complications of colds.

There is no case too bad for it to overcome.

HEAVIEST MAN IN
WEST FOUND DEAD

SAN FRANCISCO, Jan. 23.—Herman ("Baby") Schmidt, known far and wide as the heaviest man in the West outside of a museum, was found dead in bed by his wife yesterday morning, heart disease being assigned as the cause. He was 55 years of age.

Schmidt, who weighed over 400 pounds owned the Bismarck saloon at 640 Stanley street. He was as agile as a normal person, and up to the time of his death seemed to suffer no particular inconvenience other than might be expected from his immense weight.

Schmidt came to this country from Germany thirty years ago and although he feathery, he rapidly took on weight, until his proportions became gigantic. For a time there was a keen rivalry between Schmidt and John Jacob for the honor of being the fattest man in the Coast, but Schmidt finally outstripped his competitor. Schmidt was a member of several lodges and had a host of friends.

Hisagenes were alive it would be of means of practical jokes to steer him up against Adams county, Ohio.—Pittsburg Gazette Times.

CATARRH
A SPECIFIC BLOOD IMPURITY

Catarrh is a deep-seated blood disease, one which no amount of local treatment will ever permanently cure. The beneficial effects of washes, sprays, inhalations, etc., are only temporary, and when left off the old condition returns, because the blood is infected with catarrhal matter and impurities. This impure condition of the circulation irritates and inflames the delicate mucous membranes and tissues and produces the well known symptoms of ringing noises in the head and ears, mucus in the throat, headaches, watery eyes, partial deafness, sore throat, general impairment of health, etc. This condition will remain, growing worse as long as the catarrhal matter is allowed to remain in the blood. Being a specific blood impurity, there is only one way to cure Catarrh, and that is to purify the blood. Nothing equals S. S. S. for this purpose. It attacks the disease at its head—in the circulation—and by thoroughly renovating the blood and cleansing it of all impure matter, makes a permanent and lasting cure of the disease. For forty years S. S. S. has been recognized as the best blood purifier, and the thousands of cases of Catarrh it has cured is proof that it is the very medicine needed by those who suffer with this trouble. Book on Catarrh and any medical advice free. THE SWIFT SPECIFIC CO., Atlanta, Ga.

Hermann, Construction Engineer, at 1000 Broadway, San Francisco, Cal., up to and including February 15, 1911. Location of land is from seven to nine miles east of San Francisco, and is situated in the Calaveras road from Millerton to the Spring Valley Water Company's headwaters in the northern end of Calaveras Valley. In the NW quarter section 24, T. 3 S., E. 4 E., D. 10 N., the boundaries of said land are as follows: On the north, by the line of the Engineering Department in San Francisco, Cal.

SUFFRAGE MEASURE
CREATES TIF
IN SENATEQuick Results Are Assured in
School Text Books Under
Investigation.'THIRD DEGREE' MAY
BE MADE UNLAWFULLower House Turns Down Hard
Farwell's Anti-Smoking
Resolution.

SACRAMENTO, Jan. 23.—The Senate began holding double sessions today, adjourning from 12:30 to 2 p. m. Most of the bills introduced at the morning session were those already forecasted, and interest centered mostly in a little tiff between Senators Sanford and Julliard, both Democrats over women's suffrage. Senator Sanford's bill providing for an election by women only on the question of equal suffrage came up on the calendar for third reading and passage, and the senator asked that it be made a priority measure. Senator Julliard, however, announced nearly everybody by offering a substitute motion that the bill be sent back to the Judiciary committee, "where," he said, "this question may be settled in five minutes."

SANFORD WAS PEEVED.

As the Judiciary committee is in recess in favor of a constitutional amendment for woman suffrage, the outlook was displeasing from Senator Sanford's point of view, and Senator Wolfe supported him. Senator Julliard finally agreed to postpone his motion until tomorrow.

Quick results in investigation of the school book situation were assured to the senate by Senator Stowbridge, chairman of the committee on education, speaking on Senator Stowbridge's resolution for a committee to investigate content of text books and the system under which changes frequently are made.

WILL RUSH MATTERS.

"We hope to finish this investigation in the present session of the legislature," he said, "at any rate, we will carry on the work with all possible rapidity and report to the Senate from time to time as we progress. Senators Stowbridge, Shanahan, Black, Thompson and Avey were appointed on the committee by Lieutenant Governor Wallace, presiding officer of the senate.

Among bills introduced were: Prohibiting the use of torture known as the "third degree," in police investigations.—Weight.

Providing for knotted ropes and fire-escapes in hotels and prohibiting the throwing of bottles or other glass in public highways.—Campbell.

CUT TEETH DENTAL BOARD.

Reducing the powers of the State Board of Dental Examiners.—Eldred.

For military training in high schools.—Larkin.

Senator Campbell's bill providing that autoists who run into or over other persons must assist them and give their names under penalty, was passed.

The new exposition resolution was adopted in both Houses and wired to Senator Perkins and Congressman Julliard.

HOUSE DEFERS ACTION.

Action on a resolution proposing an amendment to the rules of the House recognizing the San Francisco earthquake as a standing committee of the whole was postponed this morning until tomorrow, when it will be made a special order of business.

The House by a vote of 54 to 25, decided against the resolution presented Friday by Assemblyman Farwell, prohibiting smoking in the assembly chamber at any time.

APPROPRIATIONS REQUESTED.

Bills were introduced by Assemblyman Farwell of Los Angeles and Assemblyman Hinkle of San Diego regarding the lands within the harbors of each of the two cities.

Assemblyman Struvenbrueck introduced a bill providing for the creation of forty new agricultural districts for the holding of state fairs, and appropriating \$102,200 for this purpose. He also offered a bill allowing railroad men to vote in any precinct, the votes to be counted in the election precinct.

A bill appropriating \$50,000 for the establishing of a polytechnic high school in Humboldt county was presented by Assemblyman Jasper.

HODGHEAD WANTS
CITIES ALL ONEBerkeley Mayor Would Make
One Big Municipality
About the Bay.

Berkeley, Jan. 23.—Mayor Beverly Hodghead of Berkeley is anxious to amend the bill proposed by Senator Ed-ward Wolfe of San Francisco regarding a measure which will lend feasibility to the proposed consolidation of the bay cities into one great municipality. When word was received from the capitol today that the measure was being held back pending action from Berkeley's chief executive, Mayor Hodghead's views were sought upon the matter.

"I think each one of the cities concerned in this proposed consolidation should have an opportunity of doing what they want in this matter," he declared. "I believe that the majority of the citizens of the separate municipalities are opposed to it, and I think it is provided that their local rights have been preserved and that they are permitted to assume the government of their own section. These are the certain features which I want to point out to Senator Wolfe before the presentation of the bill."

ILLNESS CALLS HALT
IN THE BURKE CASE

SANTA ROSA, Jan. 23.—The closing arguments in the Burke case were not heard today on account of the absence of Juror George H. Hall. Juror Hall, a childless man, was seriously ill with pneumonia that he was compelled to remain at his bedside today, when the crisis is expected.

Judge Sewell said this morning he believed, from the reports he had received, that Hall would probably be able to resume his place in the box tomorrow morning.

FORMER CONVICT
HELD AS BOLD
BURGLAR SUSPECT

ERNEST GIBSON, ex-convict, captured by police.

Ernest Gibson, who has served three terms in the penitentiary, was arrested yesterday morning by Patrolman Holmberg as he ran from a lodging house at Seventh and Broadway in which he had taken a room.

The man was found acting suspiciously by the proprietor and rushed out when questioned as to his actions. Gibson, who is also known as Joseph Williams and Frank Vondra, has been under a searching examination by the detectives this morning and indications point to his having been connected with several burglaries committed in this city within the past few weeks. He is believed to be responsible for the theft of jewelry from the office of Dr. A. F. Piercy in the Macdonough building.

His previous record shows that he was sent up for burglary in 1902, 1904 and the last time from Oakland in 1907, having served terms aggregating about six years. He is being held in detention pending further investigation.

One Dead, Five May Die
As Result of Hotel Fire

OMAHA, Jan. 23.—One man is dead and five others in a serious condition as the result of a fire early today in the Millard Hotel. Three hundred guests were asleep when the fire broke out and many barely escaped.

The dead:

THOMAS J. FIELDS, Sioux City; suffocated by smoke.

Injured:

J. C. CAMPBELL, hoseman, Company No. 3; overcome by smoke.

R. J. GREELEY, Chicago; overcome by smoke and unconscious at hospital.

E. J. STRAHL, Lincoln, Neb.; leg broken.

W. H. STEVENS, salesman; overcome by smoke.

JOHN W. CATHART, St. Louis; overcome by smoke.

Every piece of apparatus in the city was ordered to the scene by Chief Salter shortly after the first alarm was turned in, and within an hour the fire was under control. There were a number of thrilling rescues.

Thomas J. Fields was formerly a hotel clerk in Wisconsin. He was en route from San Francisco, where he had been visiting his mother.

The property loss will not exceed \$10,000.

Sudden Rain Drives Bold
Aviators to Seek Shelter

SAN FRANCISCO, Jan. 23.—Rain gathered and the aviators and mechanics were already on ground preparing for the amateur flights at noon when the showers fell and a resident Scottford ordered a postponement.

White Man's Slayer Taken;
Mob Declares He Escaped

AVERA, Ga., Jan. 23.—After shooting and killing D. C. Humphrey, white, Will Johnson, a negro, was captured by a posse and lodged in jail yesterday. He was taken from the jail later by a mob which overpowered the guard and disappeared with its victim. The members of the mob declared afterward that he escaped.

GIRL AND HORSE
SOUGHT BY POLICE

Pretty 16-Year-Old Miss Rents Animal and Then Disappears.

A pretty sixteen year old girl mounted on a brown mare is being sought by the Oakland police. The officials are in doubt as to whether the girl has taken the horse or has come to grief in an accident of some kind.

The report which has started patrolmen and deputies in search of the young horsewoman comes from Miss Beatrice Graham of 833 Telegraph avenue, where the girl rented a saddle horse yesterday afternoon. She disappeared with her mount, and neither horse nor girl has been seen since. Miss Graham told the police this morning that she was in doubt as to the purpose of the girl in taking the horse. She explained that the girl had appeared five or six times for a jump, but that there was something peculiar about her actions. Nothing is known concerning the young woman's name or address.

The proceeds are to be used to furnish an addition to the chapter rooms which are located at 512 Twelfth street.

WOULD WEIGH BABIES
IN COUNTY BALANCES

All boarded out babies within the jurisdiction of the Associated Charities of Oakland are to be weighed on the first Monday of each month if Frances B. Lemon, secretary of the organization, succeeds in inducing the Alameda County Board of Supervisors to contribute one-half of the cost entailed in the purchase of a pair of scales for that purpose.

The proposition to weigh the little shavers in the balance and ascertain if they be found wanting was submitted to the supervisors at today's session.

It is planned to have the foster mothers bring the babies to the secretary's office on the dates stipulated for the purpose of having them weighed and examined by Drs. Sylvester and Parsons, who will contribute their services gratuitously. It is also the purpose to instruct the foster parents on the occasion of each visit upon the preparation of foods, and other matters essential to the welfare of their little charges.

The sum requested of the supervisors is \$9.25, but before it can be appropriated the proposition must, like all others, follow the well-beaten trail of red tape.

NORTON'S SALARY
TO BE \$40,000Secretary to President Will
Hold Position With Big
Corporation.

WASHINGTON, Jan. 23.—Charles D. Norton of Chicago, who will retire from his position as secretary to the President on March 4, will take a place with one of the big corporations of the country at a salary of more than \$40,000 a year. This much has leaked out concerning the secretary's intentions.

The offer was made to Norton immediately upon his return from Panama, where he accompanied the President. It was then that he resigned from the Northwestern Life Insurance Company, from which he had obtained leave of absence in order to enter public life and accept Mr. Taft's offer.

It is believed here that Mr. Norton's refusal to go back to the employ of the Northwestern means that he has been offered the presidency of some big concern at a salary of \$60,000, the amount the principal corporation have recently agreed upon as the salary of their highest officials.

DR. MERRITT SUIED
BY ENGINE COMPANY

Following charges of fraudulently promoting oil stocks in connection with the Halvick Oil Company upon which he will have to stand trial in the Superior Court, suit was filed today against Dr. C. H. Merritt for \$250 by a Los Angeles firm which Merritt purchased a quantity of mining supplies some time ago and for which payment has not been made.

The charges in regard to the oil operations of Merritt were preferred by State Mineralogist Aubrey, who claimed that the company had no legal title to the lands which were offered to prospective investors, and that they were not oil lands at all.

Additional Sports

AMERICAN PLAYERS
LOSE CALIFORNIA
LEAGUE GAME

SAN FRANCISCO, Jan. 23.—America made its debut in the international series of the California Football League's annual matches and almost—but not quite—made a victory out of its first appearance. The Irish players of the league were opposed to the natives, and the Emerald Islanders just nosed in winners by 2 goals to 1.

A number of the men who were selected on the two teams did not show up for the match at Athletic grounds in San Francisco and the vacancies were filled by players drafted from the outsiders. Among the players who did not appear was a green jersey today without being selected. Captain Martin, who was the only view of Ireland was had from the deck of the steamer that brought him from Wales to the United States, also made a green uniform.

The American team was mostly American, although Opperman, a new recruit recently arrived from Chicago, talked as if he might have been recently left the Schwarzwald. A number of Stanford men were in the crowd, but the work has been changed from the track to the gymnasium during the rainy season.

CHARTER MAY BAR
MANY CANDIDATES

Eligibility to Office Said to Be
Contingent on Four Years'
Residence in Oakland.

Prospective candidates for municipal honors in the annexed district of Oakland are greatly agitated over the discovery in the city charter recently adopted of a provision which makes eligibility to office of mayor, councilman or auditor contingent upon four years' residence in the city of Oakland.

As the people of the annexed district became residents of the city of Oakland but its over a year ago, it is feared by some that this provision in the charter may cut the annexed territory out of any representation in the new city government for the next two years.

The opinion is not held by City Attorney B. N. Woolner, who declares that the charter cannot be interpreted in such a manner as to deprive citizens of their constitutional right to the ballot or to represent the people of the city.

In his opinion, residence for four years in the territory annexed will be equivalent to residence for four years within the actual boundaries of the old city.

The wording of the new charter, however, is unequivocal. It specifies that residence of four years in the city of Oakland is prerequisite to eligibility to run for administrative office in the municipal government. Two years is required for eligibility as a candidate for school director.

Another interesting feature about the charter is that until women are given the ballot, they will not be eligible for the position of mayor, auditor or councilman. The women are to be elected to the board of education under the new charter.

Pending the return of Mayor Frank K. Mott, political gossip around the city hall has run dry, and it is the consensus of opinion that things will not liven up till his return.

The clauses in the new charter which many fear may operate to bar candidates from the annexed district, read as follows:

"Article V, Section 10.—To be eligible to the office of mayor, auditor or commissioner, the person must be a citizen of the United States of California, and shall have been a resident of the City of Oakland for four years next preceding his nomination."

"Sec. 11.—To be eligible to the office of school director, a person must be a citizen of the United States, of the age of 21 years, and shall have been a resident of the City of Oakland for the two years next preceding nomination."

THINK LOCHINVAR
IS BEHIND BARS

Arrest of Harry A. Du Four Believed to Reveal Victoria Romance.

SAN FRANCISCO, Jan. 23.—With the arrest this morning of Harry A. Du Four, a member of the North American Detective Bureau, with offices in the Muirhead building, the police believe they have put an end to a romance concerning which a number of complaints have been received, and incidentally have brought to light the whereabouts of a man for whom an inmate father-in-law is alleged to be looking, he having won the affections of a prominent society girl of Victoria.

Reports have been received at police headquarters to the effect that a number of persons applying to Du Four for positions as detectives, had been required to put up a \$50 fee and then had been sent to Victoria, presumably a wild goose chase. None of the alleged victims were willing to prosecute and this morning Detective Sergeant Gibson, who had been detailed to Du Four to go in and hire himself to Du Four.

The latter quickly accepted the new applicant and gave him a shadowing detail, whereupon Gibson and Detective Mulcahy swooped down and took him fast to a charge of violating section 453 of the local ordinance which prohibits the running of a detective office without a license.

After his apprehension, it developed that Du Four had been going around with a woman, and it is believed that he had done so that his father-in-law could not locate him.

It is said that he used for and won the hand of a society belle of Victoria, and carried her off triumphantly.

ALAMEDA MEMBERS TO
CONSIDER SALARY RAISES

SACRAMENTO, Jan. 23.—Next Wednesday night the Alameda county delegation in the legislature will consider an increase in the number of deputies and also an increase in popular salaries. The chairman of the delegation, however, announces that no lobbying on the part of the officials will be allowed.

Today's Racing Results

First Race—Three furlongs, purse \$100. (Thomson) 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

ST. JOSEPH'S WINS
FAST GAME FROM
SACRED HEART

The announcement made a few days ago that St. Mary's College that the annual track meet with Santa Clara College would be held May 20 has caused a revival of this branch of sport at the Oakland institution. Although the organization of the track team had been effected in December the members were waiting for the above notice to begin their work in earnest.

During last week Captain Martin announced that the first meet of the season would be held with the Stanford freshmen at Stanford March 8. The freshman team of the University of California will also be met, but the date has not as yet been arranged.

March 15 the team will journey to Berkeley where they meet the high school team of that city, and it is likely that another meet with the Stanford University of Pacific, probably in Oakland.

At the beginning of this semester the material hand did not warrant any predictions as to the success of the team, but matters are brightening up. The new men have taken hold. The college stadium presented a busy appearance. Secure the track and the gymnasium has been changed from the track to the gymnasium during the rainy season.

Turf Cossip

Otto Townsend, the noted New York turfite, said yesterday that he will be one of those who will take a trip across the zig pond this summer and witness the running of the English horse.

A recent dispatch from Lexington says that Vice-chairman Milton Young called a meeting of the State Racing Commission for January 24.

Stewart Polk writes from Juarez that Smiley Metzner, who was rescued from a fire at that place recently, has recovered and will be seen at the races soon.

News comes from Louisville that President Charles E. Chandler of the New Louisville Jockey Club, who is at the head of a concern that manufactures machines for pari-mutuel betting, has received an order from Secretary W. E. Foxworth of the Ontario Jockey Club for twenty-one of the machines to be used in connection with the installation of the pari-mutuel system of betting at Woodbine track the coming spring.

An innovation in the machines will be registering of the sum bet in dollars, instead of tickets sold. Whenever a two-dollar ticket is sold, for instance, the register will show \$2 instead of one ticket. This will simplify the work of computing the amount bet, for one who casually scans the various machines to get a line on how the play is going on any horse or any race.

The layers had a good break Saturday. The lot looked happy when Daddy Gip was defeated in the closing race.

A dispatch from New York says that the James R. Keene stable is not likely to figure largely in turf events in America the coming season. The Keene stable is being sold to a syndicate in England hereafter. The Keene breeding establishment in Kentucky will be continued, however.

Also Hesse, one of the best known turfmen in the United States, died recently in Los Angeles.

The knights of the midnight will from now on be convinced that Arasee is a "superior mudder."

A ton of coin was wagered on Grace G to be in the money. She was left standing at the gate when the barrier was sprung.

The stable connection and their friends sunk the ship on Edile Dale.

Owner George Berry was very confident that his Millo would give Oakland a hard race for first money. He made a story Oakland won again, which made it four straight.

Oswald Bianchi, the proud owner of Oakland said Saturday that the colt will not be seen in action again this season.

Tony Faust and Dargin, both sired by Sain, fought the inch by inch in the second race Saturday.

The following horses were sold under the hammer at the track Saturday: Dark Night, \$55; Agreement, \$50; Point Lure, \$50; Nettie Travers, \$50; Wagoner, \$50; Ada Sain and Anna Virginia were sold jointly for \$180.

Owner and Trainer Jack Keene said yesterday that he is going to weed out his stable and lead a number of horses that have not earned their feed to a new stable in Oakland to be sold to the biggest bidder with the proviso that the horses will not take part in a speed contest of any kind, but will be used to the horses pulling a milk wagon.

RUSTLING PAPER FOILS
BOLD ROBBER'S PLANS

BINGHAMTON, N. Y., Jan. 23.—A bit of paper rustling in the wind foiled a plan to rob four stores here last night. Patrolman W. T. Hunt, patrolling his beat in Water street, heard a slight noise and peered into a dark alleyway. He saw that the rustling noise was caused by a place of newspaper blown along the pavement but looking further he spotted a man trying to force an entrance into the rear door of a store. The policeman watched the man at work for a time and then arrested him.

He applied to the store with a long pole to get into the rear door of a store. He had already forced the rear doors of four stores and was evidently planning to go through all of them in succession if undisturbed.

CAPTURES THREE MEN
WHO HOLD HIM UP

PORTLAND, Ore., Jan. 23.—While Police Sergeant Goltz was passing by a woodpile at West Park and Burnside streets last night, three men stepped from behind it and ordered Goltz to throw up his hands. Although each of the men was armed with a revolver, Goltz showed fight. At the unexpected show of resistance, two of them took to their heels, while Goltz took the third into custody.

After handcuffing his prisoner, Goltz forced the man to take him to the room occupied by the trio, where the sergeant, singlehanded, captured the two that had fled. The men gave the names of Peterson, Olson and Ratzkin.

OLYMPIC MEETS BAD
DEFEAT AT HANDS
OF ST. MARY'S.

The St. Mary's College basketball team added two goals to their credit last Saturday night when the 145-pound team defeated the Olympic Club by a score of 14 to 12. The Olympic Club, which was the Plymouth team, which was much heavier, by the score of 23 to 20. The work of the 145-pound team was especially commendable, for the Olympic Club is considered one of the best of the unlimited fives.

MISSING STANFORD
STUDENT IS FOUND

SAN FRANCISCO, Jan. 23.—Joseph A. Hellmann, 22 years old, son of A. C. Hellmann, president of the Stock and Bond Exchange, who was reported missing from the California Hotel last Wednesday while suffering from lapse of memory due to overstudy, is today at the Detention hospital.

He was found last night in a lodging house in the city, and was taken to the hospital. The young man had taken a room at the Seventeenth street house, where he was found. He refused to return to the home of his father at Redwood City and was removed to the Detention hospital, where he is being held for observation.

The halter brigade was swelled at Jacksonville the other day by the addition of John W. Schorr and J. Karat, Trustee, who was running for the first time in Karat's corner, won the second race, and was promptly boosted to \$100 by Leo Johnson, and then to \$1350 by R. D. Williams, and then by J. W. Schorr to \$1600, at which figure the latter secured the colt. This was a raise of \$700 over his entered price.

Richer Than Cobalt
or Coeur d'Alene

are some of the silver-lead mining districts along the line of the Grand Trunk Pacific Transcontinental railroad.

A small portion of this territory has produced to date \$60,000,000 in gold.

Let us send you free of cost the "British Columbia Bulletin of Information," giving synopsis of the land, mining, timber and other laws and up-to-date information of fortune-making opportunities for investment.

It tells you how you can share in the tremendous development which is starting along the line of three great transcontinental railways that are opening up 30,000,000 acres of rich agricultural and fruit land and 50,000,000 acres of the richest timber, coal and mineral land in British Columbia, known as the Fort George district.
